SIGNIFICANT ACCOUNTING POLICY AND NOTES TO THE ACCOUNTS

**1. Accounting Assumptions**

The Accounts of the institute are prepared under the historical cost convention with applicable accounting standards and relevant presentation requirements as per income tax act, 1961 using the mercantile method of accounting unless stated otherwise here in after.

**2. Revenue Recognition**

Fees from students are accounted on accrual basis after taking into consideration of all scholarships given in accordance with AS-9. Revenue is recognised only when it is reliably measurable and reasonably certain that the ultimate collection will be made.

**Tuition Fees**

Tuition fees are recognized over period of time towards the academic session of a particular semester. Any fees received in advance for next accounting year is not recognized as income for the year in which it is received, but shown as a liability in the balance sheet of the college. Such fees are recognized as income in the income and expenditure account of the next accounting year to which it relates. Similarly, fees relating to the current year, if any, due from the students at the end of the accounting year is income of that year.

**One time charges**

Colleges normally receive one time charge, i.e., the charges which are paid only once during the tenure of the studentship in the college. These charges are usually in the form of fees for admission to college, registration fees, etc. and are generally non refundable. Such charges are recognised as income when received.

**Periodic charges**

In addition to tuition fees and fees for pursuit of other curriculum activities and one-time charges, colleges also receive some other non-refundable charges from the students on periodic basis, for example, magazine/newspaper charges and other annual charges received from the students at the beginning of each academic year. Such charges are recognized as income on a time proportion basis over the relevant period.

**Caution Money**

At the time of admission of a student to a college, caution money is also received which is refundable to the student at the time the student leaves the college. Caution money is of the nature of deposit and, therefore is not considered as income. It is shown as a liability in the balance sheet of the college. The caution money is recognized as income only when a student waives his right to receive the caution money or it is forfeited by the college as per the rules or a

student does not claim the caution money after becoming entitled to receive the same within the period during which refund can be claimed as per the policy of the college.

### Hostel fees

Hostel fees is the fees charged for boarding and lodging from the student who avail the hostel facility. Revenue from such fees is recognized on time proportion basis over the period for which the fee is received. Revenue from mess charges received from the student living in the hostel is recognized on a time proportion basis over the period for which charges have been received.
