Learning's

The main objective of effective group discussion is selecting the right person as per the parameters of the discussion.

Group Discussion or GD is a type of discussion that involves people sharing ideas or activities. People in the group discussion are connected with one basic idea. Based on that idea, everyone in the group represents his/her perspective. The purpose of a group discussion is not to win an argument or to amuse your classmates. The purpose of a discussion is to help each group member explore and discover personal meanings of a text through interaction with other people and finally selecting the right and appropriate candidate for Group Discussion.
