2.5.2. Mechanism of internal is transparent and grievance redressal system is time bound and efficient.

Internal assessment of students is also based on the guidelines issued by affiliating university and Pharmacy Council of India, New Delhi from time to time. The institution has formulated an Examination Policy that incorporates all the guidelines issued by regulatory authorities from time to time.

An examination committee is formed comprising of a Senior Professor, few faculty members and office staff, which ensures the conduct of internal assessment. The assessment involves conduct of periodic sessional examination, both theory and practical semester; assignment/quizzes, practical record evaluations, field-work reports, project reports, practice school reports. These assessments along with attendance of the students constitute the **continuous assessment framework**.

The **examination committee** co-ordinates and allocates responsibility of question paper setting, time-table formation, invigilation duty scheduling, recording of examinations, provision of material for conduct of examination, appointment of valuers, timely valuation, display of results on the notice-boards, answer-book discussion with students and resolution of grievance if any on the spot.

Grievances of students if any exam-related grievances are there or any issue addressed by the students, it will be resolved on an immediate basis. In case a student is unable to appear in routine sessional examination then a provision of remedial examination is made.
