Year 2023-2024

Principal
Indore Institute of Pharmacy,
INDORE (M.P.)

2.2.1 The institution assesses the learning levels of the students and organizes special Programmes for advanced learners and slow learners

Process of Assessment:

Institute identifies learning levels of students in every semester using the grades obtained in first sessional examination in theory and practical. Students with less than fifty percent score are considered as slow learners and those scoring eighty-five percent and above are considered as advanced learners.

Special Programmes for slow learners:

Remedial classes of the courses in which students score less than fifty percent are organized. A time table along with instructor are prepared by the academic committee and the lectures are conducted after regular academic schedule. Care is taken to appoint the faculty other than the one who teaches the subject. Study materials are also provided for subjects that require improvement.

Efforts taken towards learning needs of advanced learner:

Advanced learner's students are motivated and guided to participate in various intercollegiate competitions, workshops and national/international conferences. Advanced learners are also encouraged for self-paced certificate programme as well as Modern Analytical Instrument Training Programme.

Principal
Indore Institute of Pharmacy,
INDORE (M.P.)

Classification of Students based on learning speed

On the basis of their preceding exam performance, current subject performance and class observation, learning speed students can be classified in two group

- Advance Learner
- Slow Learner

Each type of students has different learning attitudes and learning habits. A faculty has to adapt a teaching methodology such that he/she may not lose the attention of the **slow learners** and turn off the **advanced learners** Based on the ability determined, some students need only guidance and some students need a hard work and regular attention.

The purpose of assessment of the learning levels of the students and conduction of activities for them is: -

- Identification of the slow learners and advanced learners in the class.
- To ensure that slow learners and advanced learners are taken care as per their needs.
- To help them out for improvement in their academics. And be equal to all students.

The remainder of this manual describes the constituent parts of the slow learner and advanced learner identification process and activates for them and includes guidance on process.

Process Input:

To start identification of slow and advanced learner process following inputs is needed

- First sessional result
- Class observation by subject teachers

Process of Slow learners and Advanced Learners (Identification and Activities):

The process of assessment of the learning levels of the students and conduction of activities for them should be carried out through a systematic procedure as shown in the flow chart and explained in detail as below:

Principal
Indore Institute of Pharmacy,
INDORE (M.P.)

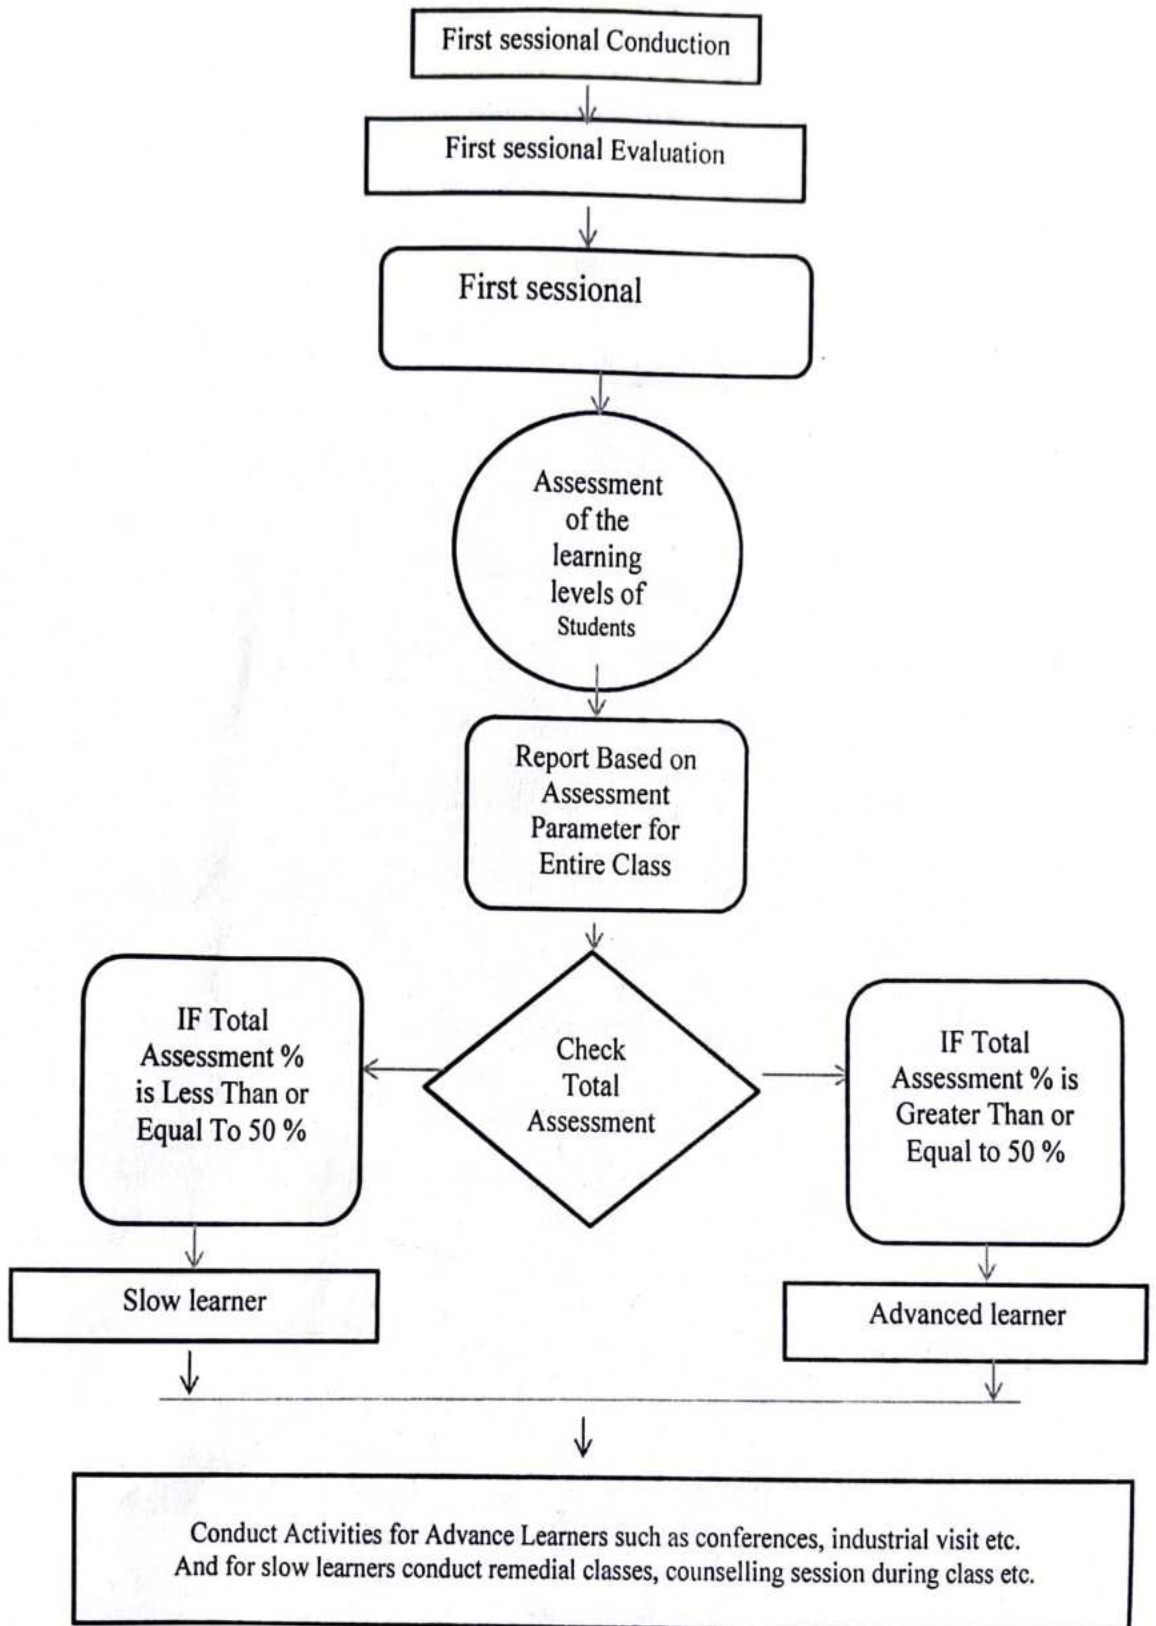

Fig. 01 Process of Slow Learner and Advanced Learner

Guidelines for identifying Slow and Advanced learners

(For Session 2023-2024)

1. The subject teacher is responsible for finding slow and advanced learners from their respective courses.
2. Students having less than 50% marks in 1st sessional examination will be considered as slow learners.
3. Slow learner students will be provided, extra classes. A separate timetable will be prepared for their remedial classes.
4. In the 2nd sessional examination, these students will be observed for improvement and if they secured more than 50% marks, they will be converted to advanced learners, if they secure less than 50% again, extra classes will be organized and practice tests will be conducted.
5. At entry level students are classified on the basis of 12th class percentage or CGPA of the previous class.
6. Rest of the students who don't fall in above categories are considered as advanced learners.
7. Advanced level students are incentivized by promoting to do research work with the faculty members.
