AVAILABILITY OF DATABASES REPOSITORY OF THE LIBRARY

National Digital library of India: - The National Digital Library of India (NDLI) is a virtual repository of learning resources that is not just a repository with search/browse facilities but provides a host of services for the learner community. It is sponsored and mentored by the Ministry of Education, Government of India, through its National Mission on Education through Information and Communication Technology (NMEICT). The NDLI provides free access to many books in the Indian languages and English. Filtered and federated searching is employed to facilitate focused searching so that learners can find the right resource with the least effort and in minimum time. NDLI provides user group-specific services such as Examination Preparatory for School and College students and job aspirants. Services for Researchers and general learners are also provided. NDLI is designed to hold the content of any language and provides interface support for the 10 most widely used Indian languages. More than 60 types of learning resources are available - books, articles, manuscripts, video lectures, thesis, etc. Items are available in more than 400 languages. It is built to provide support for all academic levels including researchers and life-long learners, all disciplines, all popular forms of access devices, and differently abled learners. It is designed to enable people to learn and prepare from best practices from all over the world and to facilitate researchers to perform inter-linked exploration from multiple sources. It is developed, operated, and maintained by the Indian Institute of Technology Kharagpur.
