**Indore Institute of
Pharmacy**

Approved by PCI (M.P.) & AICTE (M.P.)
Registration No. 100/2004

6.1.1. The governance and leadership is in accordance with vision and mission of the institution and it is visible in various institutional practices such as decentralization and participation in the institutional governance

Indore Institute of Pharmacy (IIP) was established in the year 2004 with an objective of offering value-based education and developing ethical pharmacists for this noble profession. IIP has received NAAC 'A' accreditation. It is approved by PCI & AICTE and holds ISO 9001-2000 certificate. IIP has also received Quality Management certificate ISO 9001:2015 and Environment Management System Std ISO 14001:2015. IIP offers courses in M. Pharm (Branches of Pharmaceutics & Quality Assurance); B. Pharm, and D. Pharm,

Vision of the Institute:

" To produce competent pharmacy professionals and value-based future leaders by offering quality education that incorporates training in Holistic Work-Life Management."

- 1. Competent Pharmacy Professions- With courses in Pharmacy backed with industry demanded Skill Improvement Groups, IIP provides a multidisciplinary approach to ensure that the students are in sync with the syllabus as well as get add-ons while learning, which facilitates Skill building, and thus paves ways to best placements and entrepreneurial opportunities*

The main aim of IIP is to enhance the Employability Quotient of the Students along with Holistic Development. Towards this IIP have dedicated **Special Interest Groups / Skill Improvement Groups** on emerging technologies like *Clinical research/Pharmacovigilance, Basics in GLP and safety measures, tableting technology, MS-Excel, Herbal drug technology, Manufacturing and quality practices*, etc with an objective of focusing on the skill building for the students to make them Industry ready. This SIG s also give a good exposure to students for career options to choose (Industry/ Clinical Research). Further to this, the training provides a platform for initiating activities or research on the emerging fields. IIP also provide industry ready competency by signing MOUs for tie up with various industry demand-based platform like **Choithram Hospital and Research Centre, Prototyperz, SAMKEM, Clinical Orbit Healthcare Solution, Catalyst Clinical Research pvt ltd.** etc. For inculcating a technical ecosystem, IIP has conducted various technical events and also promote students to participate in national and international events- seminars and conferences to showcase their technical skills.

**Indore Institute of
Pharmacy**

Approved by: MPPH (Government) Agreement No. 00116/Phar/2011 & PPS/2011
Register: Indore (002-037)

2. Value-Based Future Leader-

IIP commits to produce Competent professionals who are capable of making valuable contribution to the society by providing health care solutions and services and work towards development in Pharmaceutical Industry and Research

IIP emphasizes on the role of pharmacists and their contributions to the Society. IIP commits itself to instill humane values to students to respect thyself and their surroundings. Various activities are organized and conducted by students at our adopted Village under the IIC and NSS Banner with an objective of Creating awareness program on health and hygiene, Educate Girl Child, Swatchh Bharat etc. Such activities inculcate special skills like leadership skill, Team work, Team building etc in the students. The faculties mentor the students to work on topics for poster presentations in National Conferences and seminars The students participate in workshops, conferences, and guest lectures. This builds a strong foundation and provides an exposure on the latest developments in pharmaceutical field.

IIP provides project-based learning through field work and survey-based projects.

INDORE INSTITUTE OF PHARMACY

Guidelines for the respective Guides of the Practice school

The guide shall select the practice school based on the below mentioned domains-

- Practice in various national laboratories, R&D centres,
- Practice based on software & health care organizations.
- Practice in Arogya Retail Pharmacy Stores, Pradhan Mantri Janaushadi Yojana
- Practice in Hospital Pharmacy,
- Practice in Online Pharmacy
- Project based on Medical waste management
- Any other practice idea of guide after prior discussion

Every candidate shall undergo practice school for a period of one month or 150 hours evenly distributed throughout the semester.

At the end of the practice school, every student shall submit a printed report (in triplicate) on the practice school he/she attended (not more than 25 pages).

The report submitted by the student, knowledge and skills acquired by the student through practice school shall be evaluated by the subject experts at college level and grade point shall be awarded.

A Report on One Day Health Awareness Programme (HAP)

A One Day Health Awareness Programme was organized by Indore Institute Of Pharmacy, Indore.

Date: 24.03.2023, 1:00 am

Venue: Sindodi Village, Indore

Faculty Coordinator- Ms. Anita Patidar

Student Coordinator- Tanmay Sharma

Photographs of Health Awareness Programme

The One Day Health Awareness Program was conducted to create health awareness among the people so we went to the village - Sindodi.

The students of IIP with NSS group actively participated for the event.

We reached Sindodi till 1:00 pm and gathered in a school (Shaaskiya Madhyamik Vidyalaya, Sindodi).

Principal
Indore Institute of Pharmacy,
INDORE (M.P.)

Principal
Indore Institute of Pharmacy,
INDORE (M.P.)

Many children studying there attended the event and we interacted with them. Handouts were circulated and made them understand about maintain routine hygiene. After general interaction children sang out poems of good habits.

They were asked about their daily routine and quiz was played among them to motivate for a healthy lifestyle and interacted with village people.

As 24th March is known for World's TB Day to raise public awareness about the devastating health, social and economic consequences of tuberculosis (TB) and to step up efforts to end the global TB epidemic, we had a briefing session with them.

We guided them about the early symptoms, remedies and precautions to be provided for tuberculosis.

Lastly we distributed ice-cream among students as a token of gratitude and headed towards our institute.

Report on "World Red Cross Day"

Indore Institute of Pharmacy, Indore celebrated World Red Cross Day. On the occasion of World Red Cross Day on 8th May 2023, General Health checkup Camp was planned for the faculty members, staff members and students. Immediately after planning the program, approval to organize the body checkups was approved and the preparations were started. Notice and circular were prepared and circulated among all the faculty members, staff members and students.

Venue: Indore Institute of Pharmacy, Indore

Date: 8th May 2023

Time: 2.00 pm to 4.00 pm

Conception

World Red Cross day is celebrated every year on 8th May to mark the World Red Cross day. Every year, a specific theme this year 2023 was celebrated on the theme, "To highlight the universal, human, and diverse aspects of the Red Cross Movement".

Details of the Programme

The event was started in presence of Respected Chairman Sir, Respected DG Sir, and Respected Principal Sir IIP, Respected Principal Sir IIST, Principal Sir IIMR, Faculty members, staff members and students.

World Red Cross day is celebrated to promote awareness regarding health as well as to celebrate efforts and success of healthcare workers. To honor healthcare profession and promote awareness regarding health, Indore Institute of Pharmacy, Indore organized general health checkup camp (checking parameters: Blood pressure, Body mass index, Blood glucose level, Body Temperature, Height, Blood Group etc) for all the faculty members, staff members and students in IIP building, IIST campus.

At the end of event, Ms. Deepika Bhawsar Coordinator of the event proposed vote of thanks and acknowledged the contribution of eminent student Volunteers, faculty, staff and participants.

INDORE (M.P.)

The One Day World No Tobacco Day Program was conducted to save the country and the world from tobacco among the students and staff.

The students of IIP with NSS group were taken for this event.

On World No-Tobacco Day Rally and plantation program to make a tobacco-free India under the banner of National Service Scheme with the oath of making the students and staff was conducted for a tobacco-free society.

World Tobacco Prohibition Day, on May 31, Indore Institute of Pharmacy, Indore along with National Service Scheme organized world no tobacco day, the students and professors of the college took an oath to protest against any kind of intoxication with tobacco. Will stay away from drugs and the country will keep away the world from drugs.

In this sequence, a drug-free rally was also taken out under the banner of National Service Scheme.

On this occasion, Director General of the college Mr. Arun S. Bhatnagar Sir planted saplings in the college to clean the environment and to spread awareness about the environment and the main objective of World no tobacco day is to make the environment clean by planting saplings and save the country and the world from tobacco.

REPORT ON WORLD ENVIRONMENT DAY

Event: World Environment Day

Date: 05/06/2023

Venue: Herbal Garden, Indore Institute of Pharmacy, Indore

World Environment Day (WED) is celebrated annually on 5 June and encourages awareness and action for protection of the environment. It is supported by many non-governmental organizations, businesses, government entities, and represents the primary United Nations outreach day supporting the environment.

First held in 1973, it has been a platform for raising awareness on environmental issues as plastic pollution, marine pollution, over population, global warming, sustainable development and wild-life crime. World Environment Day is a global platform for public outreach. The theme of world environment day, 2023 is "solution for plastic pollution".

Indore Institute of Pharmacy has organized World Environment Day on 05/06/2023 at Herbal Garden, IIP. Plantation drive was organized to celebrate the event. 50 saplings were planted by faculty, students and nonteaching staff.

The event was inaugurated by Shri Arun S. Bhatnagar, Director General, IIST/IIP/IIMR. In the event oath ceremony was also conducted for 'one millet meal each day' to promote millet use by the people to stay healthy. Shri Bhatnagar briefed the gathering about the importance of millet in our daily meal. Dr. Dinesh Kumar Mishra, Principal Indore Institute of Pharmacy delivered the vote of thanks.

The event was successfully coordinated by Dr. Praveen Sharma (Event Coordinator) and Dr. Pritesh Paliwal (NSS Coordinator). Faculty, non-teaching staff and students participated and coordinated each activity enthusiastically.

REPORT ON WORLD BLOOD DONOR DAY

Event: World Blood Donor Day

Date: 14/06/2023

Venue: Indore Institute of Pharmacy, Indore

On the occasion of World Blood Donor Day, 'Blood Donation Camp' has been successfully conducted on 14th June-2023 in IIP building, IIST campus. The event was started in presence of Respected Chairman Sir, Respected Group Advisor Shri Arun S Bhatnagar Sir, Respected Principal Sir IIP, Faculty members, staff members and students. The theme of world blood donor day, 2023 is "Give blood, give plasma, share life, share often".

Students participated in this social cause with great zeal. More than 70 people donated the Blood. Team of 10 doctors and volunteers from Sri Aurbindo Medical Blood Bank in association with Nidaan conducted the Camp very efficiently.

Mementos were presented to the officials of SAIMS and NIDAAN, NSS volunteers. Principal sir Dr. Dinesh Mishra distributed certificates to all the donors.

The aim of the activity was to promote awareness of about blood donation.

The event was successfully coordinated by Dr. Rupesh K. Gautam and Dr. Rekha Bisht were the event coordinators. Dr. Pritesh Paliwal, NSS Coordinator and NSS volunteers put all the efforts to make this program a great success

3. Holistic Work-Life Management- The intrinsic approach of the institute- "Samagra Samutkarsh" plays a pivotal role in making the students aware of their Intelligence-Emotional-Social-Spiritual-Happiness Quotients and set them free to explore its upscaling. The approach facilitates these ambitious minds to keep themselves grounded as they aspire to attain their dreams.

IIP has signed MOU with Heartfulness education trust, whereby workshops are conducted on Yoga and Meditation for students and faculties.

Many Green initiatives are started under Green Waves Club as movement to conserve the nature at the campus and to inculcate the sense of responsibility towards Mother Nature among students and all the staff members. An ecosystem has been structured such that the biofertilizers (cow dung, cow urine) are obtained in- house, organic farming is carried out within campus and organic products are utilized for staff members and students.

Email from Director General Sir for Green wave initiated @ IIP

Group of Staff Members (Left) and Staff Arun S. Bhargava (Middle) DG Sir Along with Student's Students.

Summary:

Event started at around 12:00 Noon. Followed by that a short video was played. Then Principal gave brief about IIP's, where Sustainability, Green Campus, Programmatic activities, Chief Justice Officer gave brief about Security, Campus, House Keeping, Dow and Hostel Facility. Prof. A.S. Katar gave brief about placements. Followed by that there was Quick Testimonial Video of Students. After that they were directed to sit in Auditorium. I. Prasad welcomed all staff good was done. Then JIC explained DG Sir motivational speech and will brief about C-Plan and Health Development. Followed by DG speech. Chief Justice addressed the gathering. Then inauguration of Green Wave Club was done by Chief Justice. Then students were directed to Green Garden for inauguration of "Green Waves" Club. In Motivation of Green. The main objective of establishing Green Wave Club is to teach the art of living a sustainable or ecofriendly life. This club is not just an extra-curricular activity but an integral part of the principle system developed by IIP. Group to spread awareness to IIP, IIMR and IIP college campuses as well as to the entire world. Use of eco-friendly substances like paper, plastic, cardboard, paper towels, plastic containers, plastic bottles, glasses etc. make and restrict dietary consumption. All these substances do not mix in the earth, make it more polluted, and give rise to worrying problems like global warming. The purpose of humanity is to keep the earth habitable for the coming generations, but if we keep adding more and polluting the environment then surely our day our earth will not be habitable. Keeping in view all these problems "Green Wave Club" has been organized. The event spread throughout the campus following being taken by IIP. It has the aim to raise above students' knowledge, change our habits, prevent our mother earth, and save...

Inauguration activity of Green wave club under Green wave movement

INDORE (M.P.)

Indore Institute of Pharmacy

Affiliated to B.P.U. (Bhopal), Approved by AICTE (New Delhi) & PDCI (New Delhi)
Regd. No. - Under UOI, 1987

The institute promotes regular engagement of faculty, students and staff with neighborhood community for their holistic development and sustained community development. IIP encourages the students to interact with the neighboring communities to explore the opportunities for involvement in social work that helps in developing interpersonal relationships, leadership qualities, organizing skills, understanding the life of underprivileged people, help needy people, and inculcate moral and human values among the students. The institution has an active NSS wing which takes up projects like keeping the Institute clean and green, doing community service by conducting awareness drives through educate people on literacy and cleanliness, plantation, save soil, organizing blood donation camps and the like. The students feel a sense of responsibility and believe that they need to give back to society and the environment what they have taken.

Mission

1. To provide quality education and training to a budding pharmacist who can withstand a transforming healthcare system.
2. To bridge the gap between academia and creative professionals for industry 4.2 or 5.0.
3. Honing the students' future with the approach to creating emotional quotient with intelligence quotient for holistic development with the aim of Know thyself and be thyself willing to evolve.

The mission statement spells out the needs of the society in explicit terms, namely competitive technology and holistic development of the individual to accomplish the vision of the institution.

Interaction with Academia and Industry for Collaborative work / Startup

IIP is streamlining and strengthening the innovation and entrepreneurial ecosystem in campus and will be instrumental in leveraging the potential of science, student's creative problem solving and entrepreneurial mind-set, and promoting a strong intra and inter-institutional partnerships with different stakeholders for this we have:

1. **Institute Innovation Council (IIC)** established in year 2020-21 in association with **MoE Government of India** (Year 2020-21 onwards). The primary aim of MoE's Innovation Cell (MIC) is to encourage, inspire and nurture young students by supporting them to work with new ideas and transform them into prototypes while they are informative years.

IIP got establishment certificates by Innovation Cell, Ministry of Education, Govt. of India to promote Innovation and Start-up in campus during the IIC calendar year 2020-21.

KANTHSUKH VATI

Authors: Priyanshi Jain*, Yash Rawka*, Dr. Pritesh Palliwad

Indore Institute of Pharmacy, Indore, M.P., India

E-mail address: yashrawka2002@gmail.com, chiprivanshijain2003@gmail.com

ABSTRACT

In today's world, throat infection are most common disease but people do not take it seriously. However it leads to a painful condition such as soreness of throat, cough, pharyngitis and also cancer. Oral dispersible vati are solid, unit dosage form of medicament usually in a flavored, sweetened base, that are intend to dissolve or disintegrate slowly in the mouth or pharynx. They are designed in such a way to be released quickly to yield a level of drug in the oral cavity. Oral dispersible vati is made by direct compression method & formulation was further evaluated on the basis of organoleptic characters and other pharmacopoeia parameters. From above evaluation it can be concluded that the vati presented under brand name **Kanthsukh Vati** can be used for treatment of initial stage of cough, throat irritation, sore throat, throat infection and other respiratory diseases.

Keywords: Cough, Throat Infection, Kanthsukh Vati.

INTRODUCTION

Coughing occurs as a defensive reflex due to stimulation or reflex arc. Coughing causes clearance of secretion and particle as a reflex action. It is a protective action against foreign particles and certain pathogens. It is also important to clear secretions associated with inflammation and infection. Though cough has role of protection, productive cough causes trouble and harm to mucosal layer of airways. Initiation of coughing happens due to irritation of cough receptor present in oropharyngeal cavity. For the early treatment of cough and bronchial complaints soft vatis are usually taken as soothing agents. Vatis are easy to administer. Due to pleasant taste these are placed in mouth for longer time and sucked the drug released over a period of time to have local effect. Vatis are solid preparations that contain one or more

1

Principal
Indore Institute of Pharmacy,
INDORE (M.P.)

medicaments, usually in a flavored, sweetened base, that are intended to dissolve or disintegrate quickly in the mouth. They can be prepared by direct compression of API in vati. Development of vati was done dates back to 20th century and is still in commercial production. Most of the vatis preparations are available as over the counter medications. Vatis provides a palatable means of dosage form administration and enjoys its position in pharmaceutical market owing to its several advantages.

Compressed Vati:- Commercially, the preparation of Vatis by tablet compression is less important than hard- candy manufacturing techniques. Essentially, Vatis tablets differ from convention tablets only in their organoleptic and non disintegrating property and slower dissolution rate..

Advantages:

- It is easy to administer to both pediatric and geriatric patients.
- It has a pleasant taste and will extend the time a quality of drug remains in the oral cavity to elicit local activity.
- Keeping the drug in contact with the oral cavity for an extended period of time
- Avoid the first pass metabolism of medicine.
- Do not require water for intake.

Disadvantages:

- It could be mistakenly used as candy by children.
- Heat unstable drugs are suitable.
- Parents should be cautioned not to associate medication with candy and to keep the product out of the reach of children.

METHODOLOGY

Procurement of Plant Material:

All the raw material was procured from local market of crude herbs in Indore. Identification of plant material was done by botanist of local market and the specimens of plant material are deposited at institutional laboratory. Saccharum officinarum L is used as base for the vatis was procured from local market.

Processing of Plant Material:

The material was cleaned and thoroughly dried in oven at temperature not exceeding 60°C. All the plant material were powdered individually using simple mixer blender available in lab and sieve it through sieve no. 14 and then stored in airtight container away from light till further use.

Instruments:

For quality assessment of formulation different instruments used that is available in central instrumentation room of institute. Direct compression machine was used for the preparation of vatis present in institute.

Formulation:

Ingredients	Qty.(%)
<i>Jaggery (Saccharum officinarum L.)</i>	25
<i>Turmeric (Curcuma)</i>	15
<i>Clove (Syzygium aromaticum)</i>	6.25
<i>Ajwain (Trachyspermum ammi)</i>	6.25
<i>Black pepper (Piper nigrum)</i>	7.5
<i>Ginger (Zingiber officinale)</i>	7.5
<i>Liquorice (Glycyrrhiza glabra)</i>	12.5
<i>Peppermint (Mentha)</i>	1.25
<i>Excepients</i>	16.25

Kanthsukh Vati were prepared using jaggery as base. The technique used was "Dry Granulation". All powdered material were weighed (Table 1) and mixed homogeneously. Weighed quantity of jaggery was melt & Keep it for cool at low temperature, slug was formed. Slug was crushed and Powder mixture was added to it. Once mixture was thoroughly mixed was added to it with continuous stirring. The mixture was poured into hopper and vatis were formed by tablet punching machine. The prepared vati's were evaluated for different pharmacopoeia parameters and packed in packing material and label.

Table 1: Formula for Herbal Vatis

EVALUATION OF FORMULATION

Formulation of Vati was developed and sampled and evaluated for different parameters such as microscopically Evaluation, Uniformity of weight, Friability, Disintegration, Determination of ash Value, Swelling Index, Determination of moisture containing.

Microscopically Evaluation:-

These were determining by visual observation for physical appearance and identity. Other organoleptic characteristics such as taste, color uniformity, dimensions also were evaluated. Length and thickness of 20 vatis samples were determine using vernier caliper and observations are as in the Table: 2, for an average dimension indicating uniformity in the size of vatis.

Uniformity of Weight:-

Twenty vatis were randomly sampled and weighted individually on high precision balance. Average weight as well as %deviation for weight for the twenty vatis was determined.

Hardness Test:-

The hardness testing was done by using Monsanto hardness tester for sampled vatis and average hardness was determined and the result were indicated as kg /sq cm.

Friability:-

It is determined with a friability test apparatus of veto, Indore, India. Twenty Vatis were collected at random and weighted on a precision balance, Vatis were placed into drums of the apparatus which is then set for 100 revolution. After the test the Vatis were deducted and weighted again. The % friability was calculated using following formula

$$\% \text{friability} = \frac{\text{initial weight} - \text{final weight}}{\text{initial weight}} * 100$$

Disintegration Time:-

Disintegrating test of the prepare Vatis was performed according to monographic procedure given in USP 34, using a disintegration tester in phosphate Buffer (PH = 6.2) maintained at 37± 0.5 degree Celsius as disintegration medium. Six Vatis were placed in the cylindrical disappearance of Vatis or its particles from the tester net were recorded as disintegration time.

Determination of Ash Values:-

The total ash method is designed to measure the total amount of material remaining after ignition. This includes both "physiological ash" which is derived from the plant tissue itself, and "non-physiological" ash, which is the residue of the extraneous matter (e.g. sand and soil) adhering to the plant surface.

Determination of Moisture Content:-

This test is used to determine the water content of a material by drying a sample to constant mass at a specified temperature. To determine the moisture content of the formulation the weighted amount of formulation were processed in hot air oven at 120 degrees centigrade till constant weight obtained and the percent moisture content was calculated.

RESULT AND DISCUSSION

The prepared cough Vatis "kanthsuk vati" was a polyherbal cough relieving formulation containing *Jaggery (Saccharum officinarum L.)*, *Turmeric (Curcuma)*, *Clove (Syzygium aromaticum)*, *Ajwain (Trachyspermum ammi)*, *Black pepper (Piper nigrum)*, *Ginger (Zingiber officinale)*, *Liquorice (Glycyrrhiza glabra)*, *Peppermint (Mentha)*. All of these components are well known for their pharmacological action such as :-

Jaggery (Saccharum officinarum L.):-

Jaggery is the best immune-boosting food. It is loaded with vitamins, minerals, and antioxidant. It detoxifies the body by cleansing the lungs. It treats cough and cold & reduces irritation. It also having anti-allergic properties.

Turmeric (*Curcuma*):-

Turmeric contains the highest concentration of curcumin of any plant species. It has ability to boost the absorption, and best for cure cough & cold and relive irritation. It helps to promote immune activity around joints and muscle.

Clove (*Syzygium aromaticum*):-

Clove oil acts as an expectorant for treating respiratory disorders, including colds, bronchitis, and cough, asthma, and upper- respiratory conditions. It help in the case of chronic coughs and is mentioned to be specifically useful in the case of shortness of breath.

Ajwain (*Trachyspermum ammi*):-

Thymol in ajwain is packed with anti-inflammatory, anti-bacterial and anti-fungal properties that help in providing instant relief from cold, fever, and flue. It helps in clearing nasal blockage by discharging the mucus. It also treats oral problems, maintains cholesterol levels, relief from arthritis, and relieves acidity and other medicinal properties.

Black pepper (*Piper nigrum*):-

Black pepper has expectorant and suppressant properties that help to reduce symptoms associated with cough and cold. It is replete with antibacterial and anti-inflammatory properties, which help keep infections at bay and also provide relief from the discomfort. It is also enriched with vitamin-C, which naturally boosts the immunity and work as an excellent antibiotic.

Ginger (*Zingiber officinale*):-

Ginger powder (sonth) is enriched with anti-inflammatory properties that help to treat cough and cold and improve digestion. In fact, it is treated as expectorant natural medicine to prevent common cold. Moreover, the antibacterial properties in it also help in prevent infections in the body.

Liquorice (*Glycyrrhiza glabra*):-

Liquorice is also known as mulethi that contains glycyrrhizin and heaving sweetening taste, it is a primary active ingredient. It decreases swelling, decrease

cough and act as an expectorant. It also increases the chemicals in our body that heals ulcer and gives smoothening effect..

Peppermint (Mentha):-

Peppermint is used as natural decongestant and fever-reducer. It contains menthol, and ingredient found in topical rubs that helps relief congestion. Menthol is also used in many cough drops to help soothe sore throats and quite cough. It helps in relieve pain, prevent or reduce vomiting, eliminate mucous and boost blood circulation.

Organoleptic parameter:-

The vati were found to be round shape with smooth texture. The round shape was due to dyes used for preparation. The taste of vati was determined using human volunteer panel of 3 people and was sweet, spicy and refreshing in taste. The sweet taste could be attributed to the use of jaggary as base and masking agent and spicy & refreshing due to other ingredients. The odour of prepared vatis was aromatic and agreeable and can be attributed to the presence of clove. The colour of vati was greenish-brown due to base ingredient jaggary and crude drugs which were dark coloured.

Uniformity of weight:-

Average weight for twenty vati was found to be 0.255 gm. The no. of Vatis deviating from the average weight were within limit of 5% specified in the monograph. The uniformity in weight can be correlated with uniformity in dosing.

4	0.4	-0.1	14	0.3	0
5	0.3	0	15	0.2	0
6	0.2	0	16	0.3	0
7	0.2	0	17	0.3	0
8	0.1	+0.1	18	0.2	0
9	0.2	0	19	0.2	0
10	0.3	0	20	0.3	0

wt. variation = ± 0.18

Hardness :-

The hardness determination is one of the required parameters in quality assessment for vati. The transport and handling may cause chipping of the Vatis. Hence to determine the ability of the formulation to prevent fracturing, hardness testing was performed using Pfizer Hardness Tester. The average hardness of twenty vatis was found to be 3-3.5 Kg/cm².

Friability:-

The additional test to confirm the impact resistance of the formulation, friability testing was performed on the twenty vatis. The percent loss in weight estimated was found to be 0% which indicates that the formulation passes the test as the limits specified in the pharmacopoeia indicates that the value should be not more than 1.0%.

Determination of Moisture Content:-

This test is used to determine the water content of a material by drying a sample to constant mass at a specified temperature. To determine the moisture content of the formulation the weighted amount of formulation were processed in hot air oven at 120 degrees centigrade till constant weight obtained and the percent moisture content was

Determination of Ash Values:-

The total ash method is designed to measure the total amount of material remaining after ignition. This includes both "physiological ash" which is derived from the plant tissue itself, and "non-physiological" ash, which is the residue of the extraneous matter (e.g. sand and soil) adhering to the plant surface.

Total Ash (%w/w)	
Water Soluble Ash	
Acid Insoluble Ash	

Disintegration Time:-

Ideally this test is not official for the formulation expected to be dissolved slowly in the mouth and hence the limits are not specific. Still the test was performed to find whether the vatis dissolves in mouth and in how much time it takes to dissolve completely so that the faster and localized onset of action can be observed. The test was performed as per the procedure given in the monograph for the uncoated tablets. The medium used was phosphate buffer pH 6.2 to simulate the pH of oral fluid. Sampled six vatis revealed average disintegration time of 0.66 min. \pm 0.5 min.

CONCLUSION

From the above discussion we can conclude that the vati's can be prepared by using household ingredients such as Saccharum officinarum L., Curcuma, Syzygium aromaticum, Piper nigrum, Glycyrrhiza glabra, etc and jaggery as a base very easily it can be prepared and consumed. It can be used to treat minor throat infection at initial stage of infection.

Research and Development Cell (RDC)

Date: 03 January 2022

Notice

Incubation center

Research and development cell of the institute is happy to announce the establishment of incubation center. The main objective of this center is to identify the idea and provide support in form of innovative solutions. The institute will provide work space, financial assistance to the proposed innovative idea. The whole process will be approved and monitored by the RDC.

In this regard initially student has to submit their project idea. The idea will be reviewed by the RDC to check and verify the feasibility and possibility of the proposed idea and to become startup or commercial product. During review process if the committee find there is a need of financial assistance then it will be forwarded for approval to the Principal.

The institute has earmarked funds to the tune of Ten lakh rupees (Rs. 1000000/-) for the academic year 2021-22.

We wish the students and faculty mentors to better utilize this opportunity to avail the benefits.

Grandeur of Nature- Formulation & Evaluation of Cosmetic Poly-herbal Face Pack

Aayushi Arora, Bhagyashree Yadav, Garima Vyas,
Dr. Pritesh Paliwal, Dr. Dinesh Kumar Mishra

Introduction

Herbal cosmetics are the products which enhance the appearance, improve the quality of skin and all bodily related factor such as skin appearance, fragrance etc. Nowadays Herbal cosmetics are being accepted worldwide. The growth rate of herbal cosmetics in India is about 20-25 % per year. Herbal cosmetics are the formulations of various herbal extracts combined with different herbal excipients according to the need of product that we must formulate. It is the combination of Herbs knowledge and experience of modern cosmetic technologies leads to make the herbal product. Herbals are widely accepted nowadays because they have negligible or minimum side effects over other cosmetic preparations.

Recently the demand for herbal cosmetics has increased drastically because of their mild action, non-toxicity in nature and quite effective as same as other semi-synthetic and allopathic formulations. The study of functions and efficacy of plant derived ingredients for using them in herbal cosmetics is the new branch of science which has developed and knowing as "cosmetics phytognosy" which is dealing with biological and physiochemical properties of plant origin material which are used in herbal cosmetics are as follows:

1. Dried material
2. Fresh Material
3. Acellular products
4. Processed extracts
5. Pure isolated compounds

Herbal cosmetics are majorly classified in 3 categories-

1. Skin Care
2. Hair Care
3. Others

Herbal face pack comes under skin care. Skin constantly comes under explosion with microbes dust dirt radiations chemicals toxins etc. Hence to protect skin from this things people use many cosmetics as to restore the real skin for its cleaning for soothing and for preventing tanning scars wrinkles and many other skin related issues many herbal products are available in market which easily impart good results as they are of plant origin product. Herbal face pack is one of them which rejuvenate muscles or maintain elasticity of skin and improves blood circulation. The face pack gives vital nourishment to the skin. The face pack can be available

Principal
Indore Institute of Pharmacy,
INDORE (M.P.)

in 2 ways in powder form or in thick paste form. But all the categories of face pack must supply the nutrients to the skin deep down the subcutaneous tissue to supply the required nutrients to the skin. Various face pack can be used according to the skin type oily skin dry skin mixed type skin.

GRANDEUR OF NATURE-

Grandeur of Nature is an organic soil based face pack suits all skin types incorporated with natural ingredients holding different properties. The objective of this work is to formulate a poly herbal cosmetic face pack comprising of natural soils i.e. Black Soil, Red Soil and Fuller's Earth. Other excipients include Kaolin, Rose Oil, Liquorice, Tragacanth and Acacia. For a better shelf life, 1% Sodium Benzoate is added. To manage the consistency of the face pack Glycerin, Aloe Vera gel and Distilled water is added in required quantity.

✦ Materials Required- for every 1 Kg

Ingredient	Quantity
1. Black Soil	100 gm
2. Red Soil	100 gm
3. Fuller's Earth	100 gm
4. Kaolin	100 gm
5. Rose Oil	30 ml
6. Liquorice	60 gm
7. Tragacanth	100 gm
8. Acacia	50 gm
9. Sodium Benzoate	1%
10. Glycerin	qs
11. Aloe Vera Gel	qs
12. Distilled Water	qs

✦ Why use this product?

This face pack is not only ideal for all kinds of skin types but it also deep cleanses the skin, removes dead skin cells and allows for fresh skin to skin surface. Grandeur of Nature face pack is blended using a mixture of naturally occurring mineral based clays into the goodness of Rose oil, Aloe Vera & Glycerin with additional herbal ingredient like Liquorice.

Every excipient in this formulation has its own property.

- Red Soil- Promotes cell regeneration
- Black Soil- Reduces body heat
- Fuller's Earth- Provides glow to the skin
- Kaolin- Reduces extra oil from the skin
- Liquorice- Reduces Skin Pigmentation
- Rose Oil- Used as an anti-oxidant & flavouring agent

Principal
Indore Institute of Pharmacy,
INDORE (M.P.)

- Tragacanth- Used as an emollient and has anti-wrinkle property
- Acacia- Improves texture of the skin
- Aloe Vera- Gel used as an Anti-Microbial Agent
- Glycerin- Gives moisturizing effect to the skin

↓ EVALUATION TESTS-

To evaluate the face pack various evaluation tests were performed on the prepared formulation-

1. Organoleptic Evaluation- Color, Texture and Smell
2. Irritation Test- Redness, Irritation, and Swelling
3. Spreadability Test
4. Washability Test
5. pH
6. Moisture Retention
7. Viscosity
8. Stability Testing
9. Microbial Load
10. Dry Soil Testing
 - a. Angle of Repose
 - b. Density

↓ RESULTS-

Characteristics	Result								
1. Color	Brown								
2. Smell	Rose Fragrance

Face Pack, Natural, Standardization,
Cosmetics.

ABSTRACT

The objective this work is to formulate and evaluate a polyherbal face pack for cosmetic purpose from herbal ingredients. Multani mitti, Manjistha, Haridra, Rakta chandan and lodhra were procured from the local market and were dried, powdered, then passed through sieve no 100, mixed geometrically and evaluated for its organoleptic and physico-chemical, general powder, microscopical characters and chemical evaluation. The dried powder of combined form had passable flow property which is suitable for a face pack. Particle size of the powder was found to be 20 -25 μ m. The microscopical characters of dried powder of combined form were noted Herbal face packs or masks are used to stimulate blood circulation, rejuvenates the muscles and help to maintain the elasticity of the skin and remove dirt from skin pores. The advantage of herbal cosmetics is their non toxic nature, reduce the allergic reactions and time tested usefulness of many ingredients. Thus in the present work, we found good properties for the face packs and further optimization studies are required on this study to find the useful benefits of face packs on human use as cosmetic product.

INTRODUCTION

Everybody wants to get fair and charming skin. Now a day, Acne, black head, pimples, dark circle are common among youngsters and person who suffers from it. According to Ayurveda, Skin problems are normally due to impurities in blood. Accumulated toxins in the blood during improper food and lifestyle are causing skin related diseases. Various herbs, medicines are described in Ayurveda for blood purification. Herbs like Manjistha, Lodhra, Chandana, Haridra etc. are good example of blood purifier. The herbal paste which is applied on face to treat acne, pimple, scars, marks and pigments are known as "mukha lepa" in ayurveda. The process of smearing this herbal mix on face is known as "mukha lepana" This beauty therapy is popular as facial. The smooth powder which is used for facial application is "face pack". A good herbal face pack must supply necessary nutrients to skin. It should penetrate the subcutaneous tissues in order to deliver the required nutrients. Different types of skin need different types of herbal face packs (Rani and Hiremanth, 2002).

The face packs which are mentioned in ayurveda help women to get rid of wrinkles, dark circles, pimples and acne. Herbal face packs increase the fairness and smoothness of skin. We can derive the maximum benefits of herbal face packs by using them according to our skin type. These face packs increase skin glow and are best ayurveda treatment to increase fairness. Face packs are one of the oldest and beautiful methods of cleansing

skin. There are various kinds of face packs described in Ayurveda which have nourishing, healing, cleaning, astringent and antiseptic properties. We can prepare face pack in home with basic integrants found in house and kitchen. Herbal face packs are cheaper and have no side effects for getting fair skin naturally. From the ancient era people are using herbs for cleaning, beautifying and to manage them. Cosmetics are defined as the products used for the purposes of cleansing, beautifying, promoting attractiveness or alternating one's appearance (Rani and Hiremanth, 2002). Homemade natural face packs and masks make way for smooth, radiant and silky skin. In ayurveda, the herbal paste applied on face to treat acne, pimple, scars, marks and pigments are known as "mukha lepa". "Mukha lepana" is the process of smearing a herbal mix on face. This therapy is now popularly termed as facial (Millikan, 2001). Face pack is the smooth powder which is used for facial application and a good herbal face pack must supply necessary nutrients to skin and should penetrate the subcutaneous tissues to deliver the required nutrients. Different types of skin need different types of herbal face packs. Face packs used in ayurveda helps to reduce wrinkles, pimples, acne and dark circles. They also increase the fairness and smoothness of the skin (Mithal and Saha, 2004). The Natural face packs do contain some vital vitamins that are required for the health and glow of our skin. These substances also prove to be beneficial for our skin in many ways. Natural Facial Packs are less complicated and pretty simple to use. They help us in looking after skin and also prove its worthiness by increasing the circulation of the blood within the veins of the face (Saraf and

*Corresponding author: Yadav N

Department of Pharmacy, S.R.M.S., College of Engineering and Technology, Bareilly, U.P

Principal
Indore Institute of Pharmacy,
INDORE (M.P.)166

Saraf, 2005). Effects of the facial packs are generally temporary and for the regular glow it should be used 2-3 times a week.

Face packs are mentioned in ayurveda help women to get rid of wrinkles, dark circles, pimples and acne. Herbal face packs increase the fairness and smoothness of skin. We can derive the maximum benefits of herbal face packs by using them according to our skin type. Ayurvedic face packs increase skin glow and are best ayurveda treatment to increase fairness. Face packs are helpful for preventive, promotive and curative of any skin problems. The basic important herbs used for fairness of skin are as below.

Benefits of Applying Face Pack (Chanchal and Saraf, 2009)

1. Nourishes the skin. Fruit face packs supply essential nutrients to skin.
2. Helps to reduce, acne, pimple, scars and marks depending on its herbal ingredients.
3. Face packs usually remove dead cells of skin.
4. These face masks provide a soothing and relaxing effect on skin.
5. They help to restore the lost shine and glow of skin in short span of time.
6. Regular use of natural face masks bring glow to skin, improve skin texture and complexion.
7. The harmful effects of pollution and harsh climates can be effectively combated with judicious use of face packs.
8. They help to prevent premature aging of skin.
9. Formation of wrinkles, fine lines and sagging of skin can be effectively controlled by using natural face packs.
10. Natural face packs make the skin look young and healthy.

Face packs which are recommended for acne, pimple, black heads usually control the over discharge of sebum from sebaceous glands and remove the harmful bacteria inside acne lesion. The scars and marks of skin can be reduced by adding fine powder of sandal, rose petals and orange lentils with acne face pack

Precautions to be Taken While Applying Face Pack (Chanchal and Saraf, 2009)

1. Select the face pack according to your skin type. Take opinion of natural therapist or concerned skin expert before applying face pack.
2. The face pack should not be left on face more than 15 to 20 minutes. Keeping for very long time may result in formation of wrinkles, sagging of skin and enlargement of open pores.
3. Apply face pack once in a week. Don't try to peel or scratch the dried face pack. This may harm underlying skin.
4. Spray water (which is at room temperature) on face before removing dried face pack. After removing the mask, roll an ice cube on facial skin. This helps to close open pores and tightens skin. It also tones and soothes the skin.

5. Do not scrub face vigorously. This may result in eruption of pimples and dark spots. Stay away from heat when you have applied face pack.
6. Avoid applying face pack near "eye zone". The skin around eye is very delicate. The process of removing face pack may damage skin around eyes.

MATERIALS AND METHODS

Plant Materials

The materials used in the present study were purchased from local market, dried and powdered for further use. The below mentioned are the details of the plant materials used for the formulation of face pack (Kumar *et al.*, 2011; Madan *et al.*, 2014; Wilkinson *et al.*, 1982).

Multani Mitti (Calcium bentonite): Multani mitti will remove all the impurities and dead skin cells. Multani mitti will help to make you skin radiant and excellent for aggravated and irritated skin. Its cooling action soothes the skin, relieves the inflammation caused due to aggravated pitta. It removes the dirt and dead skin cells accumulated and replace with fresh, radiant and glowing skin.

Manjistha (Rubia Cordifolia): Manjistha holds the reputation of a very good skincare herb. Used externally and internally, it helps one to gain lustre and glow (of the skin) and aids to remove pimples, freckles and discoloration. Its paste should be applied in various skin disorders like itching, black spots on the face, pimples, leucoderma etc. According to Charaka, Manjistha is varnya (improving the complexion), jvarahara (febrifuge) and visaghna (detoxifier)

Haridra (Curuma longa): Haridra has anti-inflammatory and anti-allergic activity. It is best blood purifier and helps in wound healing. It posses best blood purification action so it is used in all disease with blood impurities origin. Haridra is rejuvenator of skin and revitalizes skin; delays the signs of aging like wrinkles.

Raktachandan (Santalum album): Rakta chandan (Red Sandalwood Powder) has curative value in skin allergies. Raktha Chandan powder cooling and soothing action, protects the skin against the impact of environmental pollution and keep the skin cool, fair and healthy. Sandalwood is helpful Ayurvedic herb with antimicrobial properties is used for healing various skin problems and removes scars.

Lodhra (Symplocos racemosa): Its name lodhra in Sanskrit means "that which makes the body firmer." Lodhra nourishes the skin and benefits in acne, wrinkles and other health issues related with skin. It lightens skin colour, reduces skin irritation and benefits for acne, wrinkles and other skin related issues. Lodhra is useful in skin diseases requiring purification of the skin. lodhra is shavaro (making the body and skin very attractive) and galavastatha (helping the whole body to maintain its shape).

Formulation of Face Pack

The powdered ingredients were sieved using #40 mesh, weighed accurately and mixed geometrically for uniform

mixing [Kumar *et al.*, 2011; Madan *et al.*, 2014; Baby *et al.*, 2004]. This was then stored in an air tight container for evaluation.

How to use?

* Prepare powder of all herbs- Lodhra, Rakta chandan, Haridra, Manjistha, Multani Mitti * Mix all powder as per formula * Make the paste mixing final mixture of herbs with rose water or butter milk. * Apply paste locally in face. * Wash the face with fresh water before it dries up.

Evaluation of Face Pack (Dureja *et al.*, 2005; Banchhor *et al.*, 2009)

Organoleptic Properties: The nature, color, odor, taste and texture of the dried powder of combined form were tested manually. **Physicochemical Evaluation:** total ash and acid insoluble ash was performed using incinerator, pH was found by using pH meter and moisture content was also performed. **General powder Characteristics:** The particle size of the dried powder of combined form was tested by microscopy method. The flow property of the dried powder of combined form of combined form was evaluated by performing Angle of Repose by funnel method, bulk density and tapped density by Tapping Method. **Shinoda Test:** To the extract add few magnesium turnings and concentrated hydrochloric acid. The appearance of red colour indicates the presence of flavonoids.

RESULTS

The results of evaluation are displayed in Table 2. For preformulation studies, characterization of formulation was done for its organoleptic and physico-chemical, general powder, microscopical characters and chemical evaluation. The study of nature, color, odor taste, texture, ash values, moisture content and pH of dried powders of combined form under investigation provided the important feature of organoleptic and physico-chemical evaluation.

Table 1 Formulation of Face Pack

S. No.	Ingredients (common name)	Ingredients (biological name)	Quantity of sample for 100g
1.	Multani Mitti	Calcium bentonite	30%
2.	Manjistha	Rubia cordifolia	20%
3.	Haridra	Curuma longa	20%
4.	Raktachandan	Santalum album	20%
5.	Lodhra	Symplocos racemosa	10%

The presence of ash in the dried powder of combined form was evaluated for total ash and acid insoluble ash values. The yielded was found to be 4g total ash and 2.7g acid insoluble ash. And moisture content value was found to be 4%. The moisture content values observation clearly indicated that the powder of combined form was hygroscopic in nature.

The acidic or alkaline nature of the dried powder of combined form was determined by preparing 1% dispersion of powder form in distilled water and measuring the pH with pH meter. The pH of 1% dispersion of powder was obtained as 7.61 which indicated that the powder of combined form were slightly alkaline in nature.

Table 2 Evaluation of Face Pack

S. No.	Evaluation parameters	Observation
Organoleptic evaluation		
1.	Nature (appearance)	Powder
	Color	Creamish yellow
	Odor	Slight
	Taste	Characteristic
	Texture	Fine
Physicochemical Evaluation		
Ash values		
2.	Total ash	4g
	Acid insoluble ash	2.77g
	Moisture content	4%
	pH	7.61
General powder Characters		
3.	Particle size	20-25µm
	Angle of repose	16°±1°05"
	Bulk density	0.436g/cc
	Tapped density	0.413g/cc
4.	Grittiness	No gritty particles were found when mixed with water
5.	Microscopical features	lignified fibers, fibers, sclerenchyma cells were found
6.	Chemical test: Shinoda Test	Presence of flavonoids.
7.	Nature of face after wash	Soft and fresh. Clean from dirt.

MULTANI MITTI

MANJISTHA

HARIDRA

Fig 1 Herbs used in the preparation of Face Pack

Dried powder of combined form was evaluated for particle size, angle of repose, bulk density and tapped density before being formulated.

Values of particle size, angle of repose, bulk density and tapped density obtained for powder of combined form were found to 20-25 μ m, 16 $^{\circ}$ \pm 1 $^{\circ}$ 05", 0.436g/cc and 0.413g/cc respectively, have good flow properties. The microscopical characters shows the presence of lignified fibers, fibers, sclerenchyma cells of dried powder of combined form were noted and also indicate the presence of flavonoids. The powder had passable flow property which is suitable for a face pack.

DISCUSSION

Herbal face packs or masks are used to stimulate blood circulation, rejuvenates the muscles and help to maintain the elasticity of the skin and remove dirt from skin pores. The advantage of herbal cosmetics is their non toxic nature, reduce the allergic reactions and time tested usefulness of many ingredients. Formulation was creamish yellow in colour and had semisolid consistency.

The formulation was found homogenous, easily washable and also had very slightly alkaline pH which were compatible with normal skin physiology. Angle of repose is a characteristic related to interparticulate friction or resistance to the movement between the particles. The flow property has been classified as per limit of Indian Pharmacopoeia in terms of the angle of repose. The results of all these parameters indicated that the dried powder of combined form possess good flow properties and good packing ability. Consequently, it exhibited good flow properties for formulation to achieve soft, fresh and clean formulation.

CONCLUSION

Natural remedies are more acceptable in the belief that they are safer with fewer side effects than the synthetic ones.

Herbal formulations have growing demand in the world market. It is a very good attempt to establish the herbal face pack containing different powder of plants. Thus in the present work, we found good properties for the face packs and further optimization studies are required on this study to find the useful benefits of face packs on human use as cosmetic product.

Acknowledgement

The authors are grateful to the management of Sri Ram Murti Smarak Institute of Engineering & Technology for providing all the necessary facilities for the successful completion of this work and Dr. P.K. Tiwari, Professor and Head, Dept. of Botany, Sagar University, Sagar, M.P., for authentication of the plant material.

SUMMARY

Indore Institute of Pharmacy conducted Impact Lecture Series sponsored by MOE's Innovation Cell, AICTE on 18th and 29th July to encourage and evolve the tendency of Entrepreneurship, Startup among the budding pharmacist who are going to be the future leaders of the country. The series witnessed well learned personalities from the industry; the first lecture series which took place on 18th July was delivered by Dr. Neeraj Sethiya, Asst. Professor DIT University, Dehradun. He enlightened all the students and the faculty members on the topic of the session, 'Entrepreneurship: an act of becoming the Boss of one's destiny'. It was a very educating lecture about entrepreneurship – what it actually means? Dr. Sethiya explained that an entrepreneur is the person who provides the solution to any problem which the common people are facing. Students were very curious and they were all satisfied by the sheer intelligence of the learned speaker.

The second lecture of the series was conducted by Dr. Parizad Elchidana, Principal technical Consultant ACG World, Mumbai on 'Application of AI in Pharma. Dr. Elchidana has got more than thirty years of experience in the field and listening her lecture was quite enthralling, faculty members and students were highly benefitted with her vast knowledge in this arena.

The second lecture series was conducted on 29th of July and the first lecture of it was delivered by Mr. Gourav Goyal, Asst. Director MSME DFO, Indore. He spoke on 'How to create and sell your ideas@startup'. Students thoroughly enjoyed the session and learned about the various schemes and benefits provides by the Government to encourage the tendency of becoming the job giver.

Principal
Indore Institute of Pharmacy,
INDORE (M.P.)

The second lecture of the same session was conducted by Dr. Ritesh Agrawal who is well known name in the field of patent, service mark and such kind of work and is holding the post of Director IPR Cell, Pacific University, Udaipur, Rajasthan. He spoke on 'Know the secrets of Intellectual Property Rights'. The session was filled with great energy and received the same response from the students also who asked many queries related to the session.

Subject: Report and supporting documents of IIC Impact Lecture Series conducted at Indore Institute of Pharmacy, Indore

Sir,

Indore Institute of Pharmacy being the Institution's Innovation Council's affiliated institute with IIC ID – IC202015121, conducted the sponsored Impact Lecture Series on 18th and 29th July, 2022. Please find enclosed supporting documents for your kind perusal.

The detail of the attached documents is given below:

1. Approval of Conduct
2. Mandate Form
3. Report - Session I, Lecture I dated 18th July
4. Report - Session I, Lecture II dated 18th July
5. Report - Session II, Lecture I dated 29th July
6. Report - Session II, Lecture II dated 29th July
7. E-Feedback form response sheets of four lectures
8. Poster of both the sessions
9. Geotagged Photos of all the four lectures
10. Payment reference id to three speakers (One speaker humbly denied to take remuneration, supporting certificate is presented)
11. Payment receiving acknowledgements by speakers.
12. Statement of Expenditure

You are requested to kindly reimburse the sum of rupees Nine Thousand at earliest.

Thank you.

Yours Faithfully,

To,

The Head of the Institute
& IIC President

Dear Sir/Madam,

It is a pleasure to inform that a total 645 IIC Institutions are listed to organize impact lectures (in online mode only) in their respective campuses during the period from 23rd May 2022 to 15th July 2022 and submit the reports by 30th July 2022 in the IIC portal. Detail list is attached and also you can check the same at <https://api.mic.gov.in/uploads/Institutes/mic/images/announcements/impact%20lecture%20pahse2-%20selected%20iic%20institutions.pdf>

The Ministry of Education's Innovation Cell (MIC) will provide funding assistance to these IIC institutions towards organizing Impact Lecture Sessions (honorarium to invited external experts). Please go through the attached guideline for conduct of impact lecture sessions.

For any query, please reach to Mr. Ankush Sharma, Innovation Officer, MIC at ankush.sharma@aicte-india.org, Phone no - 011 29581223

Thanks & regards.

Number of Faculty joined the lecture	:	07
Academic session	:	2022-23

Indore Institute of Pharmacy, Indore organized Impact Lecture Series sponsored by MOE's Innovation Cell, AICTE on 18th July, 2022. Out of the series of two lectures, the first lecture was taken by Dr. Neeraj Kumar Sethiya on 'Entrepreneurship: An act of becoming the Boss of one's own destiny' at 11 A.M on Google Meet.

Dr. Sethiya thoroughly explained the idea of Entrepreneurship and how it is different from traditional business. He emphasized on the most important concept of becoming the Entrepreneur is to find out the problem which common people are facing in day to day life and as a solution provider of the problem one can easily become a successful Entrepreneur and he justified the thought by giving example of Mr. Ritesh Agrawal, Founder and CEO of OYO hotel rooms as the youngest achiever in the field. He also informed students the kind of financial support government is ready to provide to any innovative idea.

Mr. Sandip Patil Co-ordinated the session. Dr. Dinesh Kumar Mishra, Principal Indore Institute of Pharmacy gave vote of thanks to Dr. Neeraj Kumar Sethiya.

Name of the Event	:	MOE's Impact Lecture Series
Expert Speaker	:	Mr. Gourav Goyal Asst. Director, MSME DFO, Indore
Date of the Event	:	29 th July, 2022
Number of Students joined the lecture	:	53
Number of Faculty joined the lecture	:	13
Academic session	:	2022-23

Indore Institute of Pharmacy, Indore organized Impact Lecture Series sponsored by MOE's Innovation Cell, AICTE – Session II on 29th July, 2022. Out of the series of two lectures, the first lecture was taken by Mr Gourav Goyal on "How to create and sell your ideas@startup" at 10:30 A.M on Google Meet.

Mr. Gourav Goyal very elaborately illustrated about the concept of Startup, he did explain the difference between the two commonly exchangeable words – Startup and Entrepreneurship. He emphasized the need of nurturing the idea through brainstorming or it can be picked up from any source like hobby, interest, real life problem. Mr Goyal tried to encourage the participants to find the problem in the society so that as a solution a Startup can be established. He pointed out that a Startup is not a traditional business but it is something which is a modified version of the same after looking the changed need of the society and customers regarding the products. He has given number of names of the local Startup from Indore itself like Cerragreen which deals in ecofriendly and biodegradable items, Freebird Aerospace which manufactures AI based drones, Aarts, Planet Furniture, Kimirika and many more in the row.

Mr. Goyal also clarified to the participants of the pre-requisites of establishing a startup that one must study about the estimated cost of the product manufacturing, how to generate the finance and how to apply for the subsidised loan from various government agencies.

He further showcased the sectors where Madhya Pradesh has no industries which includes Black Board, gas Stove, Pressure Cooker, Electric Switches, Plug and Sockets. Few sectors

(Co-ordinator)

where Madhya Pradesh has very less participation like Plywood, Carbon Steel Cast, Marine Plywood, Safety Toy, Irrigation Items, Submersible Pump, Flush Door etc.

Mr. Sandip Patil Co-ordinated the session and gave vote of thanks to Mr. Gourav Goyal.

INDORE INSTITUTE OF PHARMACY

Name of the Event	:	MOE's Impact Lecture Series
Expert Speaker	:	Dr. Ritesh Agrawal Director IPR Cell, Pacific Academy of Higher Education and Research University Udaipur, Rajasthan
Date of the Event	:	29 th July, 2022
Number of Students joined the lecture	:	59
Number of Faculty joined the lecture	:	10
Academic session	:	2022-23

Indore Institute of Pharmacy, Indore organized Impact Lecture Series sponsored by MOE's Innovation Cell, AICTE – Session II on 29th July, 2022. Out of the series of two lectures, the first lecture was taken by Mr. Ritesh Agrawal on 'Know the secrets of Intellectual Property Rights' at 10:30 A.M on Google Meet.

Dr. Agrawal has got the practical experience in the field of Intellectual Property Rights and he has explained it in all its length and width. He started the session with Patent and further explained that patent can be filed for any invention a person does, it provides the security against any piracy or misuse of the invention. The government of India provides the patent for 20 years and after this one has to re-file the same to continue his right on the patent.

He clarified to the participants the difference between Patent and Copyright also, continued further that Copyright is provided for literature, music, art, software, movies etc. No one can use any part or complete material without the permission of the owner. The Copyright is provided for the life time of the author and continues even 60 years after his death.

Dr. Agrawal also spoke about Trade Mark which provides the owner the exclusive right over the name, font and style of the product. For continuous usage of Trade Mark, one has to pay the renewal fee every 10 years of the registration.

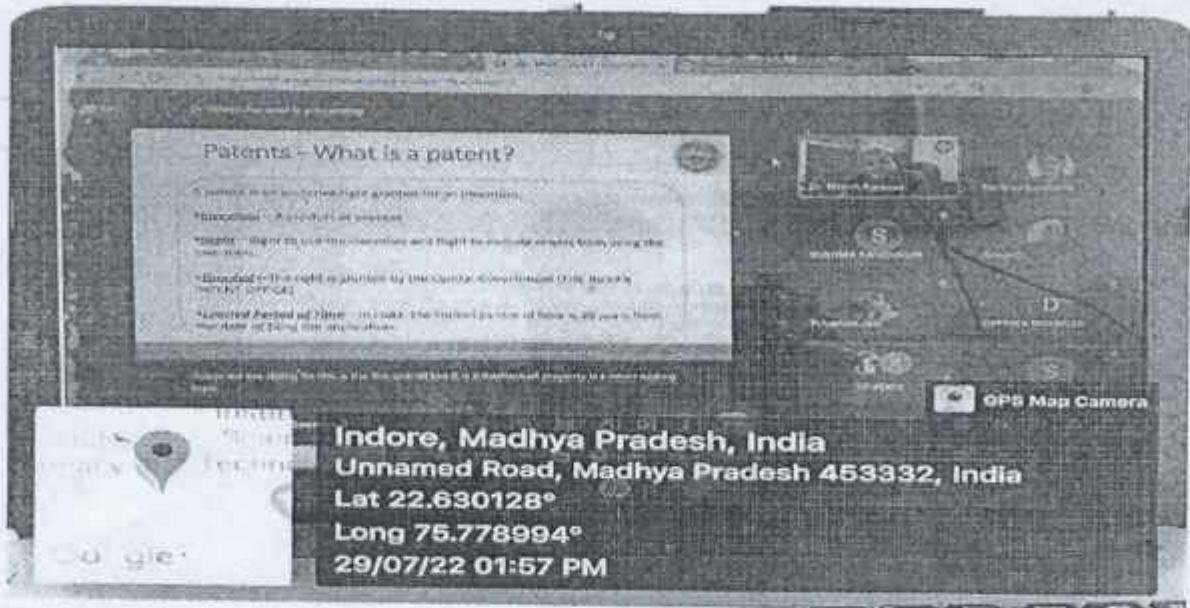

It was completely a very fruitful session and students did throw their queries about the Intellectual Property Rights and the speaker very profoundly satisfied all the participants.

Mr. Sandip Patil Co-ordinated the session and gave vote of thanks to Dr. Ritesh Agrawal.

Impact Lecture Series at

Indore Institute of Pharmacy

Indore Institute of Pharmacy

Pharmacy | Technology | Innovation | Research | Education | Industry

Session-I Monday, 18th July, 2022

Dr. Neeraj Kumar Sethiya

Asst. Professor
OIT University, Dehradun

Dr. Parizad Elchidana

Principal Technical Consultant Pharma
ACG World

Topic

Entrepreneurship: An act of becoming the Boss of one's own Destiny

10:00 - 11:30 AM

Topic

Applications of AI in Pharma

1:00 - 2:30 PM

Principal Dr. Dinesh K. Mishra

Indore Institute of Pharmacy, Principal-IP
INDORE (IIP)

Mr. Sandeep Patil
(Co-ordinator)

Impact Lecture Series at

Indore Institute of Pharmacy

Indore Institute of Pharmacy

Ministry of Innovation Council & Ministry of HRD, India

Session-II

Friday, 29th July, 2022

Mr. Gaurav Goyal

Assistant Director
MSME DFO, Indore

Dr. (Prof.) Ritesh Agrawal

Director IPR Cell
Pacific Academy of Higher Education and Research University
Udaipur, Rajasthan

Topic

How to create and sell your ideas as startup

10:30 - 12:00 Noon

Topic

Know the secrets of Intellectual Property Rights

1:30 - 3:00pm

Dr. Dinesh K. Mishra

Principal
Indore Institute of Pharmacy

Session I, Lecture II by Dr. Parizad Elchidana on Application of AI in Pharma on 18th July

DRUG DISCOVERY

The vast amount of data generated by the pharmaceutical industry has led to the development of a large number of drug molecules.

The use of advanced technologies limits the drug development process, making it a more systematic and expensive task, which can be optimized by using AI.

AI can recognize and utilize complex data of targets, which can be validated, the drug target and optimization of the drug molecule.

AI in Drug Discovery

- AI in drug target
- AI in target validation
- AI in drug optimization
- AI in drug synthesis

Building 3D structure of target protein
Predicting drug-protein interaction
AI in Screening and optimization of the drug target

Screening thousands of compounds
Identifying molecules and molecules

A molecule is selected from the library of molecules and optimized to make it more effective and safe.

Identification of new drug target
Prediction of drug target

Prediction of toxicity
Prediction of drug target
Prediction of drug target

(57) Abstract :
 The aim of this invention was to examine a novel fused deposition model (FDM) 3D printing method to fabricate gastroretentive floating tablet case with metformin HCl compressed tablet. A nitro-misole class drug metformin HCl, was allowed as a model drug to examine, and was successfully assembled into floating tablet case made up of natural polyvinyl alcohol (PVA) filament. The tablet was designed by AutoCAD followed by slicing using Cura Ultimaker 4.4 software. The floating tablet case consists of body and cap as separate component and orifice was designed at the bottom of the body of tablet case. The formulation conditions for preparation of 3D floating tablet case were optimized by observing different orifice. Three different batches were optimized on the basis of orifice size. These 3D printed tablet case were evaluated for weight variation, friability, hardness, in-vitro floating test, and in-vitro dissolution studies. All results were within acceptable range. We found that the 0.5 mm orifice case was floated on 0.1 N HCl media surface for more than 345 min and showed the zero-order drug release. Thus, this work demonstrates the feasibility of FDM 3D printing technology as a novel platform for gastroretentive floating tablet, to promote a modern era of personalized medicine.

(57) Abstract :

The present invention provides a topical formulation of *Trianthema portulacastrum* Linn. and *Leonotis nepetifolia* (L.), comprising of hydro-alcoholic extracts of *Trianthema portulacastrum* Linn. leaves, hydro-alcoholic extracts *Leonotis nepetifolia* (L.) R.Br. leaves, and pharmaceutically acceptable excipient; wherein the amount of *Trianthema portulacastrum* Linn. leaves extract 0.75ml and *Leonotis nepetifolia* (L.) R.Br. leaves extract 1.0ml. The topical formulation of *Trianthema portulacastrum* Linn. and *Leonotis nepetifolia* (L.), wherein the pharmaceutically acceptable excipients are stearic acid, cetyl alcohol, almond oil, glycerol, methyl paraben, triethanolamine and water. The topical formulation, wherein the amount of *Trianthema portulacastrum* Linn. extract ranges from 0.5ml to 1.5ml, *Leonotis nepetifolia* (L.) extract ranges from 0.5ml to 5ml, amount of stearic acid ranges from 5ml to 10ml, cetyl alcohol ranges from 5ml to 10ml, almond oil 5ml, glycerol 3ml, methyl paraben 0.02ml, triethanolamine quantity sufficient and water to make 100 ml. The topical formulation has the maximum drug content 96.21%. The process for the preparation of topical formulation comprising of adding hydro-alcoholic extracts of *Trianthema portulacastrum* Linn. and *Leonotis nepetifolia* (L.) in a dish; separately adding stearic acid, cetyl alcohol, almond oil and melting it; adding hydro-alcoholic extracts of leaves of *Trianthema portulacastrum* Linn. and *Leonotis nepetifolia* (L.) R.Br. with the glycerol, methyl paraben, triethanolamine and water in another porcelain dish and heating at 70°C; and adding all mixtures with continuous stirring at room temperature and storing in a suitable container. The topical formulation of hydro-alcoholic extracts of *Trianthema portulacastrum* Linn. and *Leonotis nepetifolia* (L.) is useful for the treatment dermatitis.

(57) Abstract :

The present invention relates to a method of evaluating anti-stress activity using ulcerogenic model of intraspecies emotional communication. The method involves preparing *Celastrum argenteum* extract as an alcoholic extract and administering it to mice intraperitoneally (i.p.) at two different doses before subjecting them to psychological stress induced by intraspecies emotional communication in a jumping box apparatus. The mice are divided into control and responder groups, with the control group receiving foot shocks and exhibiting emotional responses. The responder group observes the emotional responses without receiving the shocks. The formation of stress-induced ulcers is assessed by examining the mice's stomachs for gastric mucosal lesions, determining an ulcer index, and conducting histopathological analysis. The communication box apparatus comprises compartments with grid floors and transparent plastic boards, strategically arranged to facilitate observation of emotional responses. This disclosure provides a reliable method for evaluating the efficacy of anti-ulcer agents, including *Celastrum argenteum* extract, and offers a screening tool for stress-related ulcer management.

(57) Abstract :

The present invention provides a polyherbal formulation. The polyherbal formulation, comprising of *Saccharum officinarum* L, *Curcuma*, *Syzygium aromaticum*, *Trachyspermum ammi*, *Piper nigrum*, *Zingiber officinale*, *Glycyrrhiza glabra*, *Mentha*, and pharmaceutically acceptable excipients; wherein the weight of *Saccharum officinarum* 1.25%, *Curcuma* 15%, *Syzygium aromaticum* 5.25%, *Trachyspermum ammi* 6.25%, *Piper nigrum* 7.5%, *Zingiber officinale* 7.5%, *Glycyrrhiza glabra* 12.5%, *Mentha* 1.25%, *Visalia leaves* 6.25% and pharmaceutically acceptable excipients 10.00%. The polyherbal formulation, wherein the formulation is in the form of an aqueous solution. The polyherbal formulation, wherein the formulation is useful as an anti-tussive agent. The polyherbal formulation, wherein the formulation is herbal alternative to cure cough, cold, sore throat, and dryness. The polyherbal formulation has their usefulness as potential anti-tussive agent.

(57) Abstract
 The present invention discloses a 3D printing method with a novel way of drug loading. The method of personalized medicine where a drug loading into a 3D printed dosage form achieved via a solvent technique comprising providing a 3D-printed drug formulation, comprising the steps of: but not limited to, designing of a tablet structure and slicing of the tablet structure for further preparation of fused Deposition Modeling (FDM) through a 3D printer, reaction of the filament over the FDM 3D printer for further printing and stacking (incubation) of tablets into the drug, and further drying of the tablets, which is loaded with a pre-defined chemical drug solution and / or microtablets and ultimately suitable drug substance obtained. Accompanied Claims (FIG. 1-12)

MEMORANDUM OF UNDERSTANDING (MoU)

The Memorandum of Understanding (MOU) was entered on 22 day of 2022, at Indore Institute of Pharmacy (IIP), IIST Campus, Rau, Indore between "Indore Institute of Pharmacy", Indore, Madhya Pradesh represented by its Principal, Dr. Dinesh Kumar Mishra, having its registered address IIST Campus, Opposite IIM, Rau-Pithampur Road, Rau, Indore, Madhya Pradesh and "Axiom Analytical Services and Recruitment Agency (AASRA)", a company registered under the Companies Act, 1956, represented by its Managing Director Dr. Sachin K. Bathma, having its registered Office at Maa Girja Palace, 4th floor in front of Kamla Kunj Garden, Rajendra Nagar, AB Road, Indore (M.P.). The occasion was witnessed by Dr. Pankaj Dixit, Professor & HOD Pharmacology and Dr. Gurmeet Chhabra, Professor & HOD, Pharmaceutical Chemistry Indore Institute of Pharmacy, Indore, Madhya Pradesh.

Both IIP and AASRA evaluated and considered its feasibility and agreed in rendering such collaboration for the purpose of

- Industrial Training of students and faculty members,
- Industrial visits
- Collaborative project work
- Interactive exchange of personnel as resource person
- Software/hardware training in pharmaceutical operations
- Certification courses in core Pharmacy manufacturing areas

**Indore Institute of
Pharmacy**

1. Allocation of Technical support as per needs needed.
2. Exchange of faculty members, visits, scholars, student- based on the projects and research needs.
3. Utilization of Animal house and ISO Analytical Lab (Approved by NABL) after mutual discussion related to cost of proposal.

TERMS OF AGREEMENT

1. The parties will manage their own financial liabilities, aroused out of collaborative academic and research projects.
2. Intellectual Property Rights (IPR) titles or ownership of any product, proprietary information or technology, tools, processes, utilities, and methodology for any detectables, new ideas, inventions, or development conceived, developed or made jointly by IIP and ISECP under the ambit of this MoU shall remain the property of all the parties, as agreed mutually. This clause shall remain valid even after termination or expiry of this MoU.
3. In no event shall any party be liable for any indirect, incidental, special consequential damages, including but not limited to loss of profits, revenue, data or use, incurred by the other party, in connection with arising out of or under this agreement, save for any such loss suffered resulting from any willful and negligent act or omission of either of the parties.
4. During the tenure of the MOU, the parties agree to respect confidentiality of any work or material provided in confidence. The parties would seek each other's permission before assigning any Intellectual Property Right to a third party.
5. Neither this agreement, nor any activity described herein shall be construed as creating a partnership, joint venture, agency or other such relationship between the parties and nothing contained herein shall preclude either party from participating/initiating similar relationship with third parties.
6. This MoU may not be amended without the prior written consent of each of the parties.

7. This MoU will come into force and deemed to have commenced from the date of its signing and shall continue for a period of five (5) years from thereof and be automatically renewed for successive period of five years, unless either of the parties notifies in writing to the other party of its intentions to terminate this MoU, ninety days in advance.
8. This MoU is not a legally binding contract and under no circumstances does this MoU subject either parties to liability for breach of contract or any other liability under national or international law or any other applicable law.
9. The parties hereby agree that they shall act and exclusively by this MoU and shall be at a liberty to enter into any separate agreements or arrangements with any third party without reference to the other party.
10. If during the tenure of the MOU, any joint program is delayed due to reason of Force Majeure nature such as acts of God, acts of public enemy, acts of government, fire, flood, strike, epidemic and civil commotion, the extension of the joint programs would be mutually decided.

11. Each of IIP and ISFIP warrant that they shall not take to have any conflict of interest with any of their organizational activities or other interests relating to the work under this MoU. In case of any conflict of interest or any within the organization of either of the parties, each work collaborate under the a/c of this MoU, the concerned party may stop that work collaboration, if they so desire.
12. **TERMINATION:** If either party fails to fulfill its respective obligations as set out in the previous clauses of this MoU, the parties shall consult each other with a view to correcting the default by the party concerned. If even thereafter the default is not rectified by the concerned party, then the other party may terminate this MoU as and when it may deem fit. However, nothing in the default of a party shall that such termination will not affect the rights of the parties to the MoU, which have accrued prior to such termination.

The Institutes agree to carry out the above-mentioned activities in accordance with laws and regulations of respective institution after full consultation and approvals by witnesses whereof the parties have executed this document on the day 01st January, 2021

11. Each of IIP and ISF/CP will maintain its own records and not seek to have any conflict of interest with any of their organizational partners. It is understood that neither party has any other interests relating to the work under this MoU. In case of any conflict of interest arising within the organization of either of the parties, work collaboration under the ambit of this MoU by the concerned party may stop that work collaboration, if they so desire.
12. **TERMINATION:** If either party fails to fulfill its respective obligations as set out in the previous clauses of this MoU, the parties shall consult each other with a view to correcting the default by the party concerned. If even thereafter the default is not rectified by the defaulting party, then the other party may terminate this MoU. It is the intent of both parties to bring to the defaulting party's attention that such termination shall not affect the rights of the parties to the MoU, which shall be decided prior to such termination.

The Institutes agree to carry out the above-mentioned activities in accordance with laws and regulations of respective institution after full consultation and approvals. In witness whereof, the parties have executed this document on the day 01st January, 2021.

joint project for teaching, research and accreditation process whereby the -
Geetanjali Institute of Pharmacy (GIP) will provide the guidance to "Indore Institute
of Pharmacy (IIP), Indore" faculty and students in the college campus or via online
mode;

Therefore, the Parties to this Memorandum of Understanding, with Intention of both
being legally bound, accept the following terms and conditions;

Responsibilities and obligations

1. This Memorandum of Understanding (hereinafter referred to as the "MOU")
intends to set out the general principles of mutual cooperation in the field of
education, according to which the Sides may jointly identify areas of mutual interest
and carry out cooperative activities on the basis of reciprocity and mutual benefit.
2. This MOU will be carried out within the framework of the respective laws and
regulations and is not intended to create any legally binding rights or obligations.
3. The parties will encourage the following cooperative activities, in particular:
(a) the exchange of information on their respective educational systems and policies
to assist in ongoing education reform; (b) the exchange and professional
development of officials, academics, scholars, teachers, experts, students and
administrative staff; (c) collaboration between education institutions in joint delivery
and research programs and publications, including exchange of research materials,
publications and educational literature.
4. The parties will establish a joint committee for policy dialogue to regularly
exchange information and experience on education challenges and reforms, and to
identify priorities for bilateral cooperation in the field of education.
5. The Parties agree that it is to their mutual benefit and interest, to work
cooperatively for successful conduct of the MOU.

Participation in Similar Activities:

This MOU in no way restricts the parties from participating in similar activities with
other public or private agencies, organizations, and individuals.

Confidentiality:

Parties shall not share any confidential information with third party/parties.

Term & Termination:

1. This MOU is effective upon the day and date last signed and executed by the
duly authorized representatives of the parties to this MOU and the governing bodies
of the parties' respective countries. The MOU shall remain in full force and

MEMORANDUM OF UNDERSTANDING
FOR ACADEMIC AND SCIENTIFIC COOPERATION

BETWEEN

INDORE INSTITUTE OF PHARMACY
AND
PINNACLE BIOMEDICAL RESEARCH INSTITUTE (PBRI), BHOPAL

The representatives of *Indore Institute of Pharmacy (IIP), Indore* and *Pinnacle Biomedical Research Institute (PBRI), Bhopal*, agree to this Memorandum of Understanding.

The Memorandum of Understanding (MOU) establishes the following:

1. OBJECTIVE OF THE AGREEMENT

To establish a mutually beneficial relationship built on academic and scientific cooperation. Areas of cooperation between the **Indore Institute of Pharmacy (IIP), Indore M.P.** and **Pinnacle Biomedical Research Institute (PBRI), Bhopal M.P.** include the exchange of researchers, students, publications, academic programs and research projects.

2. GOALS AND FORMS OF COOPERATION

The signing institutions agree to provide opportunity, as appropriate, for the following activities towards the completion of the objective of this MOU.

1. Exchange of students and/or researchers with the objective of offering courses and realizing research projects in areas mutually agreed upon by both institutes through prior invitation and in accordance with the procedures and expectations established by each institute and specific department.
2. Exchange of books, scientific publications, study programs, academic projects, course information, seminars, conferences and any other data and information of common interest.
3. Develop joint research projects and joint publications.
4. All joint activities will be realized through the mutual agreement and clearly established conditions and mutual obligations of the appropriate institute entity.

3. IMPLEMENTATION OF THE MEMORANDUM OF UNDERSTANDING

The objectives of the MOU will be implemented and regulated in the following manner:

i. Student Exchange

- a. Students and research scholars may visit the corresponding departments of these institutes after finalizing a mutually acceptable schedule.
- b. All the expenses shall be the direct responsibility of the student concerned (subject to any agreements on payment arrangements made by either institution with its own students). These expenses include:

1. Travel expenses
2. Reprographic and Internet Usage Expenses
3. Required student services fees at the host institution
4. Books and academic supplies
5. Administrative fees, if any.

MEMORANDUM OF UNDERSTANDING

Between

Heartfulness Education Trust and **Indore Institute of Pharmacy**
Indore,
Madhya Pradesh, India

Principal
Indore Institute of Pharmacy,
INDORE (M.P.)

Principal
Indore Institute of Pharmacy,
INDORE (M.P.)

This Memorandum of Understanding (hereinafter referred to as "MOU") has been agreed, made and executed on this, the day of June 2022.

Between

HEARTFULNESS EDUCATION TRUST

, a registered Trust having its Registered Office at No. 40-15-9/12, Nandamuri Road, Venkateswarapuram Post Office, Vijayawada – 520 010, Andhra Pradesh [(hereinafter referred to as "HET") which expression shall unless repugnant to the context and meaning thereof include its successors, administrators and permitted assignees.]

And

INDORE INSTITUTE OF PHARMACY, INDORE

located at Rau-Pithampur road, Rau, Indore- 453331 of Madhya Pradesh State, [(hereinafter referred to as "IIP INDORE") which expression shall unless repugnant to the context and meaning thereof include its successors, administrators and permitted assignees.]

As the context may require, ~~HET and IIP INDORE~~ are collectively referred to as the 'Parties' and individually referred to as 'Party' in this MOU.

WHEREAS:

- i) Heartfulness Education Trust ("HET") is a Public Charitable Trust registered under the Indian Trust Act, 1882 *inter alia* with an objective to impart an Heartfulness approach to various wellness programmes including relaxation, meditation, values based educational programmes for schools, colleges, government organizations, corporates etc., made available to all who are willingly interested in individual development and wellbeing. HET is also engaged in conducting various Teachers' training programmes in collaboration with Certain State Governments/ Education Institutions.
- ii) **IIP INDORE**, located at INDORE DISTRICT- 453331 of MADHYA PRADESH State is one of the leading groups of educational institutions in MP and NCR region. The Institute established in the year (2003), offers variety of courses in Pharmacy, both at UG and PG levels. The Institute is approved by AICTE (New Delhi), , PCI (New Delhi) and affiliated to RGPV Bhopal. IIP INDORE believes that the core purpose of education should be the holistic development of student and to unearth the priceless treasure lying dormant in them by providing fair opportunities, space & environment to blossom the seed to its fullest potential. Education can be said conclusive if we attain twin objectives i.e prepare the students to take care of his inner self as well as to meet out the expectation of outer world. With this view, IIP Indore has initiated ~~अन्य समुचित योजना~~ under which, 'know thyself, to be thyself, willing to evolve

Principal
Indore Institute of Pharmacy

with 360 degree Holistic Development approach is implemented. The institute not only combines the formal education with best practices but also prepare the students for better standard of living as well as better standard of life by applying academic, interpersonal and academia- industry efforts to enhance IQ, EQ, SQ as well as HQ (Happiness quotient) by taking care of his inner self i.e. body, mind and soul.

- iii) HET through its 'Heartfulness' initiatives offers a way for balanced living through various meditation techniques. These simple and effective techniques gradually imbibe feelings of discipline, empathy, brotherhood, leading to mental, spiritual and psychological well-being, helping an individual to transform not only inwardly but also his/ her attitudes, and dealings with society at large.
- iv) In order to stimulate and facilitate the development of programmes/modules which serve to enhance educational, social, spiritual & emotional development of students through a collaborative approach with HET through training and experiential learning IIP INDORE has agreed on the terms mentioned herein in support of its interest in the field of education and is desirous of promoting mutual cooperation by organizing and conducting educational workshops for mental, spiritual and psychological well-being of its students, and desires to extend the basis for friendly and cooperative collaboration by way of this MOU.

NOW THEREFORE, THE PARTIES HEREBY AGREE AS UNDER:

PURPOSE AND OBJECTIVES

IIP INDORE desires to create an example for its University by offering the best for its students so as to enable them to lead lives with purpose and help the society at large. IIP INDORE has represented that it is a leading institute that offers high quality education and its priority is to provide its students values, inner development so as to perform better in studies & be leaders in nation building. It seeks to provide basic life skills to manage challenges in relationship, avoid intoxicating abuses, digital addiction and dealing with stress of modern life. It aims to enable its students and staff to de-stress, manage life's challenges in healthy ways and find joy, purpose and fulfilment. This will directly enhance their academic and work performance and create a harmonious environment within the institute.

HET has agreed to be helpful in such mission through its offerings and in addition to the above, conduct a thorough teacher and administrative staff training program in "Heartfulness" approach for their inner development so as to enable them to encourage students in this program.

Both the Parties, by executing this MOU express their commitment to collaborate with each other to conduct Educational, Relaxation, Meditation and other connected Wellness workshops.

Principal
Indre Institute of Pharmacy,
INDORE (M.P.)

which will help students, teachers in regulation of mind, moderation of tendencies, concentration, sharpening the use of will, self-analysis and acceptance of people and situations. In terms of skills and competencies, it will help the students to have improved learning skills, improved behaviour, humility, emotional maturity, and confidence, stress management, self-awareness and most importantly, develop purpose towards life.

FACILITATORS

Both the Parties shall nominate one or more representatives, who shall be the point of contact/facilitator for the purposes of this MOU. The facilitators of both the Parties shall maintain regular contact with the other Party as well as propose and review the response received for the workshops and other activities in furtherance of objectives of the purpose and objectives envisioned under this MOU.

RESOURCES

- i) IIP INDORE shall make arrangements at its agreed venue(s) with required reference reading material, through a heartfulness corner in the library, meditation practice room, audio-visual and other facilities and equipment required for conduct of the programmes.
- ii) HET shall nominate teachers, trainers and support staff, for conducting, providing training as envisaged in this MOU to participants at these workshops.
- iii) HET shall provide support to orient their teachers to conduct these HET sessions for their students and will provide full external support. HET will make students of institutions conducted by IIP INDORE understand values and their role in improving the quality of life and enable them to impart spiritual training as an Extension Activity in its institutions and when feasible.
- iv) The Parties shall agree to distribute reading materials/ promotional/ literature to the participants, through any means including video recordings. HET shall share the content of such reading materials/ literature/ video recordings etc., with IIP INDORE, before distributing such materials to the participants.
- v) They shall agree to distribute Promotional items like 'T' shirts, memento and other merchandise or articles at the venue of the programme and at HET's discretion set-up stalls for distribution of such Promotional items and details of the programme etc.

Principal
Indre Institute of Pharmacy,
INDORE (M.P.)

Principal
Indre Institute of Pharmacy,
INDORE (M.P.)

- vi) The detailed Scope of Service to be rendered by HET are listed out in Schedule 1 to this MOU which will be adhered to by HET during the term of this MOU.

OTHER OBLIGATIONS OF IIP INDORE

IIP INDORE shall extensively promote HET programs so that greater populace of students shall benefit out of the initiative. As indicated elsewhere in this MOU, being value-based model of education, IIP INDORE can make the initiatives/ programs/ Modules of HET as part of curriculum for the students on a mutually agreed basis.

IIP INDORE shall:

- i) Take initiatives such that its students shall attend the sessions taken by HET with an objective to help them achieve / inculcate the desired value systems to make them global citizens;
- ii) Facilitate students integrate the values imbibed into their lesson plans;
- iii) Jointly conduct surveys to find the effectiveness of the program carried out at regular intervals.

FINANCIAL UNDERSTANDING

HET shall provide its services in Heartfulness meditation practices on **free of charge** basis at all times as agreed. However, it is agreed that certain expenses relating to the training program, faculty etc. shall be on a chargeable basis as under:

Expenses relating to the program in terms of material (recommended reading, library heartfulness corner, meditation room would be set up as per Heartfulness Education Trust recommendations at the institute to be used by students and faculty as per the course requirements).

For training programs for faculty and students organised at the centres of Heartfulness Education trust an appropriate per diem expense would be undertaken by the institute for boarding and lodging.

Logistic:

Reimbursement of actual travel expenses for HET trainers and special guests who are invited to IIP INDORE Campus for conducting sessions/programmes. Actual to & fro airfare & taxi fare from place of residence, food and miscellaneous expenses shall be reimbursed. Stay facilities shall be to the account of IIP INDORE. We would provide a guideline.

Indore Institute of Pharmacy
INDORE (M.P.)

TERM

This MOU has been executed for the purpose of organizing workshops/ seminars/ training sessions at the premises of **IIP INDORE** or such other premises as may be mutually agreed upon and shall remain in force for a period of **THREE YEAR**, commencing from the date of execution. This MOU shall terminate after completion of the term of three year, without any financial obligations of Parties, except for pending reimbursements and costs as provided herein. Both the Parties may execute similar agreements for similar initiatives in future or even extend the term of this MOU for such further periods. Either party can voluntarily terminate this MOU by giving 3 months' notice in writing to the other.

It is agreed that **IIP INDORE** shall not copy or infringe upon the initiatives or programmes of **HET** in terms of its program offerings, videos, materials in any of their other individual initiatives and all copyrights shall vest with **HET**.

ASSIGNMENT

This MOU is personal to the Parties and the rights and obligations established herein shall not be assignable by the Parties, except to the extent expressly permitted under this MOU or with the prior written consent of the other party.

INDEMNITY

Except for cost reimbursements, the Services offered by **HET** are on a mutual basis and free of cost. Only willing participants for their own wellbeing / self-development are required to participate. **IIP INDORE** may for development of its students make the **HET** Programmes/Modules as part of its curriculum. The Parties therefore, agree that such services do not give rise to any kind of damage or liability to anybody who participates and therefore no damage can arise therefrom. No indemnity is therefore provided herein. It is clearly understood that **HET** programs do not guarantee success of its objectives or initiatives mentioned in the Article above.

GOVERNING LAW, JURISDICTION & ARBITRATION

This MOU shall be construed, interpreted and enforced in accordance with Laws of India. In case of any differences, both the parties, shall make all efforts to settle the disputes amicably through mutual discussion and negotiation, failing which, dispute(s) shall be referred to a sole Arbitrator appointed by both the Parties, as per provisions of Arbitration and Conciliation Act, 1996. Language of Arbitration shall be English and place of Arbitration shall be Vijayawada, Andhra Pradesh. Subject to the Arbitration Clause, the Courts of competent jurisdiction at Vijayawada shall have exclusive jurisdiction in respect of any and all matters pertaining to this MOU.

Principal
Indre Institute of Pharmacy

MISCELLANEOUS

- i) This MOU can only be amended in writing by mutual consent of both the Parties. No modification or amendment to this MOU and no waiver of any of the terms or conditions hereof shall be valid or binding unless made in writing and duly executed by or on behalf of both the Parties.
- ii) This MOU may be executed in counterparts including but not limited to MOUs, communications exchanged defining responsibilities, obligations of both the Parties for different programs, initiatives etc. under this MOU, each of which shall be deemed to be an original, and all of which, taken together, shall constitute an integral part of this MOU.
- iii) If any provision of this MOU shall be invalid, illegal or otherwise unenforceable, the validity, legality and enforceability of the remaining provisions shall in no way be affected or impaired thereby.
- iv) The captions of the clauses of this MOU are for convenience of reference only and in no way define, limit or affect the scope or substance of any clause of this MOU.
- v) The arrangement contemplated herein being in nature of cooperative strategic alliance for general wellbeing, no monetary consideration is involved.
- vi) None of the provisions of this agreement as stated above shall be deemed to constitute a partnership between **HET** and **IIP INDORE** and no party shall have any authority to bind or shall be deemed to be the agent of the other in any way, it is on principle to principle basis;
- vii) Neither party shall exercise any rights in the trademarks, copyright or other intellectual property of the other party, except as expressly stipulated herein.
- viii) All intellectual property rights (IPR) in "Heartfulness", The "Heartfulness" technique of Relaxation/ its connected procedures, "Heartfulness" Relaxation, Heartfulness Cleaning and other Trademarks of **HET** or of those of its associates used by **HET** under license shall always vest with **HET** or its associates and it reserves the right to use the same internally or externally at its sole discretion. **IIP INDORE** shall not have any rights over the program content/module usage which may be exploited by **IIP INDORE** only with the prior written permission of **HET** and in coordination and assistance of **HET** authorized representatives who are experts in this area. If the version of "Heartfulness" Relaxation/ its connected procedures, "Heartfulness Meditation" is modified or improved, **HET** may implement such changed versions of wellness techniques anytime during the term of this MOU.

SCHEDULE- 1 Scope of Work

Heartfulness Education Trust (HET) shall offer the following programs specifically developed for specific needs of the University:

1. **Staff Training:** HET shall impart a training program on "Wellness at work" to all Principals, Teachers and Staff of the IIP INDORE institutions at its campus. IIP INDORE may at its sole discretion make it compulsory for their faculty/staff. Initially, this would be a three-day program to introduce the Heartfulness Meditation Practice and how it can be integrated into best education practices. This wellness program can also be offered at Kanha Shanti Vanam, the world headquarters of Heartfulness located near chegur village, RangaReddy district with a residential programme facility on mutually agreed basis.
2. **In-depth Faculty Training on Heartfulness Curricula:** Following initial introduction, interested faculty would be provided a longer duration in-depth teacher training program to further enhance and develop the Heartfulness tools and Curricula. This program would be developed suitably by Heartfulness Education Trust and made available at Kanha Shanti Vanam / Heartfulness centers or on IIP INDORE campus on an ongoing basis on agreed intervals during the term of this MOU.
3. **HELM (Heartfulness Enabled Leadership Mastery) curriculum for students :** HET shall choose a college on IIP INDORE campus to begin an in-depth training for students. This would cover a 3 day induction program and a 16-week life-skills course which will be followed by subsequent foundational leadership programs such as Discover, Develop etc which can be included as credit courses. These are core Heartfulness programs conducted by certified Heartfulness trainers which will be experiential sessions of 60-90 minutes for each student group.

INDEPENDENT AUDITOR'S REPORT

Report on the Financial Statements

1. We have audited the Financial Statements of M/s. **Indore Institute of Pharmacy** ("the Institute"), which comprise the Balance Sheet as on 31st March, 2023, the Statement of Income and Expenditure for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements:

2. The Institute's Management is responsible with respect to the preparation and presentation of these standalone financial statements that give a true and fair view of the financial position and financial performance in accordance with accounting principles generally accepted in India, including the Accounting Standards issued by the Institute of Chartered Accountants of India. This responsibility also includes maintenance of adequate accounting records for safeguarding the assets of the Institute and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

3. Our responsibility is to express an opinion on financial statements based on our audit. We have taken into account the accounting and auditing standards and matters which are required to be included in the audit report under provisions of various Act and the Rules made there under.

We conducted our audit in accordance with the Standards on Auditing specified by The Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

4. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments; the auditor considers internal control relevant to the Institute's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on whether the

Institute has in place an adequate internal financial controls system over financial reporting and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

6. In our opinion and to the best of our information and according to the Explanation given to us, the aforesaid stand alone financial statements give the information in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Institute as on 31st March, 2023, and its surplus/(deficit) for the year ended on that date.
7. We further report that:
- (a) We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
 - (b) In our opinion proper books of account as required by law have been kept by the Institute so far as appears from our examination of those books;
 - (c) The Balance Sheet, the Statement of Income and Expenditure dealt with by this Report are in agreement with the books of account;

SIGNIFICANT ACCOUNTING POLICY AND NOTES TO THE ACCOUNTS

1. Accounting Assumptions

The Accounts of the institute are prepared under the historical cost convention with applicable accounting standards and relevant presentation requirements as per income tax act, 1961 using the mercantile method of accounting unless stated otherwise here in after.

2. Revenue Recognition

Fees from students are accounted on accrual basis after taking into consideration of all scholarships given in accordance with AS-9. Revenue is recognised only when it is reliably measurable and reasonably certain that the ultimate collection will be made.

Tuition Fees

Tuition fees are recognized over period of time towards the academic session of a particular semester. Any fees received in advance for next accounting year is not recognized as income for the year in which it is received, but shown as a liability in the balance sheet of the college. Such fees are recognized as income in the income and expenditure account of the next accounting year to which it relates. Similarly, fees relating to the current year, if any, due from the students at the end of the accounting year is income of that year.

One time charges

Colleges normally receive one time charge, i.e., the charges which are paid only once during the tenure of the studentship in the college. These charges are usually in the form of fees for admission to college, registration fees, etc. and are generally non refundable. Such charges are recognised as income when received.

Periodic charges

In addition to tuition fees and fees for pursuit of other curriculum activities and one-time charges, colleges also receive some other non-refundable charges from the students on periodic basis, for example, magazine/newspaper charges and other annual charges received from the students at the beginning of each academic year. Such charges are recognized as income on a time proportion basis over the relevant period.

Caution Money

At the time of admission of a student to a college, caution money is also received which is refundable to the student at the time the student leaves the college. Caution money is of the nature of deposit and, therefore is not considered as income. It is shown as a liability in the balance sheet of the college. The caution money is recognized as income only when a student waives his right to receive the caution money or it is forfeited by the college as per the rules or a

Principal
Indore Institute of Pharmacy,
INDORE (M.P.)

Indore Institute of Pharmacy

student does not claim the caution money after becoming entitled to receive the same within the period during which refund can be claimed as per the policy of the college.

Hostel fees

Hostel fees is the fees charged for boarding and lodging from the student who avail the hostel facility. Revenue from such fees is recognized on time proportion basis over the period for which the fee is received. Revenue from mess charges received from the student living in the hostel is recognized on a time proportion basis over the period for which charges have been received.

Amount received from Board for payment to Exam Invigilators

College receives amounts from the Education boards for payment to the invigilators for conducting board examinations. The amount received from the board is recognized as income and the amount paid/payable to the invigilators is shown as an expense in the income and expenditure account.

3. Donations

Donation received towards Corpus fund of the institute is directly taken to balance Sheet under the head Corpus fund and general donations are credited to Income and Expenditure Account.

4. Fixed assets

Fixed assets are stated as per written down value method including attributable interest and financial cost till such assets are ready for its intended use, less specific grants received.

5. Capital work in progress

Capital expenditure for building & site developments has been accounted under the head "building under construction" and transfer to respective assets on completion.

6. Depreciation

Depreciation on fixed assets is provided on written down value (WDV) method at the rates provided in Annexure I of Fixed Assets Schedule issued by Admission and Fee Regulatory Committee framed under Madhya Pradesh NijiVyavasayikShikshanSansthanAdhiniyam 2007.

7. Apportionment of common expenses

Common expenses incurred by the society for the various educational institutions are distributed the institution on basis of gross fee income of the respective institutions.

8. Provision and contingences

Provisions are determined based on best estimates of the amount required to settle the obligation at the balance sheet date. Contingent assets are neither recognized nor disclosed in the financial statements. The institute does not recognize a contingent liability but disclose its existence in the financial statement.

Principal
Indore Institute of Pharmacy,
INDORE (M.P.)

Indore Institute of Pharmacy

9. Employee Benefits

The Institute has not provided for the gratuity liability in accordance with AS 15- Employee Benefits as issued by the Institute of Chartered Accountants of India. However, a provision @4.81% of Basic salary plus Dearness Allowance and Grade pay is provided towards gratuity in the books of accounts. No actuarial valuation is obtained to ascertain provision for gratuity for the year.

10. There is no contingent liability as on balance sheet date.

6.4.2 Funds/ Grants received from non-government bodies, individuals, philanthropers during the year (INR in Lakhs)

Non-government bodies, individuals and Philanthropers have always been actively engaged in making generous contribution towards society, individuals often spend amounts for social cause. Education emerged to be the highest beneficiary sector rather than water conservation, healthcare, disaster relief & management, rural transformation, environment & sustainability, livelihood enhancement, societal platforms, sports for development.

Vision

The vision of the Institute is to produce competent pharmacy professionals and value-based future leaders by offering quality education that incorporates training in Holistic Work-Life Management

Mission

The Mission of the Institute is:

- To provide quality education and training to a budding pharmacist who can withstand a transforming healthcare system.
- To bridge the gap between academia and creative professionals for industry 4.2 or 5.0.
- Honing the students' future with the approach to creating emotional quotient with intelligence quotient for holistic development with the aim of know thyself and be thyself willing to evolve.

Principal
Indore Institute of Pharmacy,
INDORE (M.P.)

B. Pharm.

Program Educational Objectives (PEO)

- To prepare graduates as successful pharmacy professionals
- To make graduates competent in core technical skills who reflect commitment, ethics, and social responsibility
- To inculcate lifelong learning habits for highly productive career

Program Specific Outcomes (PSO)

- **PSO I** –Pharmacy graduates will possess basic and applied knowledge of pharmaceutical and allied sciences helping them to become competent industry-ready professionals adapting to the needs of different pharmaceutical areas.
- **PSO II** –Pharmacy graduates shall possess interpersonal skills as leader in team in appreciation of professional ethics and societal responsibilities with the attitude of life-long learning and moto of know thyself and will to evolve.
- **PSO III:** To prepare graduate of the program to learn and adapt in a globe of constantly developing trends

Principal
Indore Institute of Pharmacy,
INDORE (M.P.)

B.Pharm**Program Outcomes (PO)**

PO1. Pharmacy Knowledge: Possess knowledge and comprehension of the core and applied domains of pharmaceutical sciences, including biomedical sciences, administrative and manufacturing practices with special emphasis on developing soft skills.

PO2. Planning Abilities: Inculcate the ability to arrange the events and meet deadlines as per demand of profession.

PO3. Problem analysis: Inculcate the aptitude and scientific approach to identify the issues during daily practice and address it there and then.

PO4. Modern tool usage: Harness the capability in implementing pharmacy-related instruments, equipment including computing tools with an understanding of the limitations.

PO5. Leadership skills: Learn the quality of an entrepreneur, team-leader, and professional for serving the society.

PO6. Professional Identity: Understand and inculcate habits to earn, preserve and encourage the value of variety of professional roles of a pharmacist in society.

PO7. Pharmaceutical Ethics: Learn to use and apply personal values in professional and social contexts. Apply ethical principles while making decisions and take responsibility for the outcomes associated with the decisions.

PO8. Communication: Develop oral and written communication skills in tune with the professional role of a pharmacist.

PO9. The Pharmacist and society: Apply reasoning informed by the contextual knowledge to assess societal, health, safety and legal issues and the consequent responsibilities relevant to the professional pharmacy practice.

PO10. Environment and sustainability: Acknowledge the need of developing sustainable development in the field of pharmacy.

PO11. Life-long learning: Recognize and understand that learning is the attitude and a lifelong process to keep pace with the latest advancements in the field and society.

Principal
Indore Institute of Pharmacy,
INDORE (M.P.)

D.Pharm**Program Educational Objectives (PEO)**

To enable diploma holders practice as chemist, druggists and industry professionals

To make diploma holders proficient in core technical skills who reflect commitment, ethics, and social responsibility

To inculcate lifelong learning habits and entrepreneurship for a successful and productive career

Program Specific Outcomes (PSO)

PSO I –Diploma holder shall possess basic and applied knowledge of pharmacy practice and will cater to the ever-evolving healthcare industry thereby serving the society

PSO II – Diploma holders shall possess holistic development which will focus on more than cognitive development, as it incorporates mind, body, spirit, behaviour, and social interaction which develops the entrepreneurship skills amongst students.

PSO III: To strengthen the professional and ethical attitude, effective communication skills, teamwork skills and an ability to relate pharmaceutical sciences issues to broader social context.

Principal
Indore Institute of Pharmacy,
INDORE (M.P.)

D.Pharm**Program Outcomes (PO)**

PO1. Pharmacy Knowledge: Possess knowledge and comprehension of the core and basic aspects of hospital pharmacy, drug manufacturing, and chemist as a profession.

PO2. Modern tool usage: Understand the importance and need to use modern pharmacy-related tools and resources with an understanding of the limitations.

PO3. Leadership skills: Assume participatory roles as responsible citizens or leadership roles when appropriate to facilitate improvement in health and wellbeing and serve society.

PO4. Professional Identity: Know the role and responsibility of a pharmacist in society as an educator and health care professional.

PO5. Pharmaceutical Ethics: Honour personal values and apply ethical principles in the pharmacy profession which reflects in behavior and decision-making.

PO6. Communication: Communicate effectively with the pharmacy community and with society at large, via different modes of communication to reflect professional competence

PO7. The Pharmacist and society: Implement the acquired knowledge and information to assess societal, health, safety, and legal issues that are relevant to the professional pharmacy practice.

PO8. Environment and sustainability: Understand the impact of professional pharmacy solutions in societal and environmental contexts, and acknowledge the need for sustainable development.

PO9. Life-long learning: Recognize the need for, and inculcate the ability to engage in independent and life-long learning.
