FOREWORD

Dear Team Members,

Academic excellence is sine-qua-non of any institution of higher education which is striving for excellence. We understand that academic excellence isn't mere enhancing technical competence and deploying qualified faculty. It is also about creating suitable academic environment which is conducive for all round growth. Attracting best of faculty, compensate them adequately for their growth, enable them to live with dignity and putting in place such systems that enable an employee to perform to his full potential is central to maintain excellence in learning and proliferation of knowledge. Considering this need, we have created this Service Manual on Human Resource Management & Development for institutions of Shail Educational & Welfare Society (SEWS).

I expect each and every member of my team to study, absorb, and internalize the values, ethos and systems and strive to follow them as outlined in this manual.

Institutional Excellence and Systems

Shail Educational and Welfare Society (SEWS) was incorporated in the year 2002 with a vision to setup professional institutions and groom the younger generation to become world-class technocrats and managers. It firmly believes that there are primarily two factors that need be addressed on the path to excellence which are:

- i) Deployment of motivated faculty and maintaining academic and professional tenor
- ii) Supporting the faculty and students with state-of-the-art infrastructure to result effective knowledge transfer (teaching-learning) and research as well as holistic development of the students and its employees.

In this pursuit, SEWS has evolved various academic-administrative systems including effective human resource management processes. Keeping this in view, this Service Manual is formulated to address the issues of effective facilitation and motivation of faculty and support staff.

This Employee Service Manual comprise of Working Rules & Code of Conduct (more specifically outlining the service conditions & expectations from employees of SEWS) in addition to highlighting the ethos and value system of SWES in its pursuit of serving the Indian Society

This service manual is intended to serve as a ready-reckoner to an employee by providing an overview of human resource management processes and the conditions of employment intertwined with considerable human-orientation and humane-working conditions.

It is hoped that this service manual would generate good understanding between employees and management resulting into stronger bonding and teamwork.

7.3 Approach to Pay Fixation

The initial basic Pay for new recruit is determined through negotiations at the time of interview/selection process, considering the pay-band applicable to his position/post. Higher emoluments for technical staff may be considered based on qualifications, experience and performance on the approval of the Director.

A maximum of four advanced increments may be considered by selection committee to protect the new recruit's current pay or even to attract him to SEWS; otherwise, the committee can recommend an additional pay/ad-hoc-allowance type to make the offer attractive enough for the recruit to join SEWS. Such practices are resorted to keep employees within the set pay structure and to avoid obvious anomalies and other employee grievances. This pay is also called as special-pay or personal-pay etc.

Only the eligible technical staff that fulfills the prescribed norms recommended by AICTE will be granted pay-scale pay as per the corresponding pay-band.

7.4 Annual Increments/Special increments

Normally SEWS employees are given annual single increment once a year after performance appraisal on the basis of satisfactory performance through the year. This is meant to recognize the enhanced human capital and also to reward the loyalty. The following formalities are essential for making this exercise objective, as annual increment is not fully mandatory

- Perusal of full year attendance
- Satisfactory ratings in the annual or periodic appraisal reports on performance
- No disciplinary action proposed or initiated
- A written report from the HOD for the granting of increment
- Any other conditions

In special cases, such increments may be given even after six months; particularly to take care of exceptional contribution to the institution as well as demonstrating exemplary loyalty to the institution.

Normal practice is to constitute a committee under the chairmanship of a Director General/Principal to consider the above for deciding about additional increments.

In cases, where an employee cannot get normal-annual increments over more than two years (end of the scale etc), could be for variety of other reasons, there is a compassionate approach to provide for stagnation increment; given one increment once in two years, with the special permission of the competent authority.

Two increments are given when a faculty acquire ME/M Tech degree and three increments for acquiring Ph D degree as a motivation for acquiring higher qualification.

The class III and IV employees are getting salaries as per the prevailing minimum wage based on the Minimum Wage Act. Also Gratuity is being paid to employees on their full and final settlements.

8.0 Employee Performance Appraisal

Annual appraisal of performance with respect to yardsticks in totality, coupled with advisory support enables the employee to focus on continuous improvement of his accomplishments and thus develop high-level of satisfaction. Appraisal form duly appraised by next senior officer and superior officer will be submitted to HR department for review by Management by date as specified by HR department from time to time. Appraisal form for faculty and other staff are attached.

Periodic appraisal of performance with respect to yardsticks in totality, coupled with advisory support enables the employee to focus on continuous improvement of his accomplishments and thus develop high-level of satisfaction. For instance, typical set of performance management elements for faculty are as below:

- A faculty provides a specific Unit Completion Report of the classes taken up, attendance of students and feedback of the students (Impressions)
- Submits results of periodic assignments/quizzes/tests and examinations
- Possibly, collect unit-wise or mid-sem feedback from the students
- Faculty to provide an integrated quarterly report to his HOD (accomplishments v/s targets, developmental projects/tasks; or a self-appraisal report as per the pro-forma)
- One-to-One interaction or appraisal meeting by the HOD,
- Appointment of a mentor or a special facilitator with necessary technical or other facilitation
- Evolve a strategy in consultation with the faculty to support and motivate recommend or sponsor for specialized training or for acquiring additional qualifications like M. Tech or PhD on suitable facilitation basis
- After 4 to 6 such quarterly reviews - some recognition is suggested (advanced increments, fast-track promotion, training abroad etc) in deserving cases

HR consolidates the performance of the faculty on an annual basis and classify them into exemplary/ outstanding/well-above average etc. and also identifies low-performing faculty (under the guidance of the Principals). A duly constituted committee of specialists would advice the kind of motivation to be given to the well-performing faculty; after approval by the competent authority

8.1 Continuous Professional Development (CPD)

Continuous professional development of faculty is sine-qua-non for maintaining the tenor of academic excellence in a knowledge-based institution like SEWS. For the faculty it means meeting their academic aspirations, and for SGI, it results in enhanced knowledge & human capital and has an integrated perspective towards development of its employees, having the following considerations:
